Datamatics Signs Automatic Fare Collection Contract for Pune Metro Line 3

To deploy end-to-end AFC system for 23 stations of the Pune Metro Line 3

5th February 2025, Mumbai: Datamatics, a global Digital Technologies, Operations, and Experiences Company, today announced that it has been issued the Notification of Award for design, supply, installation, testing, commissioning and integration of Automatic Fare Collection (AFC) system for 23 stations of Pune Metro Line 3 in Maharashtra, India. Datamatics will be responsible for deploying AFC system for 23 stations between Hinjewadi and Civil Court (Shivaji Nagar) in Pune across a fully elevated route length of ~23 km. Pune Metro Line 3 is a public private partnership project by the Pune Metropolitan Regional Development Authority (PMRDA) & a joint venture between TRIL Urban Transport Private Limited and Siemens Project Ventures GmbH (a subsidiary of Siemens Financial Services) & on a Design, Build, Finance, Operate & Transfer (DBFOT) basis for 35 years.

This project is a significant step in modernizing urban transit infrastructure, and Datamatics' AFC system will ensure a seamless and efficient commuting experience for passengers. The system will utilize the National Common Mobility Card (NCMC) standard, providing commuters with the flexibility to use EMV open-loop contactless cards and QR-based ticketing. This multi-modal payment system is being designed to be future ready & enable mobility across various transit operators in Pune, creating a unified and efficient transport network contemplated under National Common Mobility Mission (NCMC).

The proposed AFC system will efficiently manage passenger flow, significantly reduce risk of fraud, and improve revenue collection. By minimizing the reliance on manual ticketing staff and offering real-time traffic and revenue management data, the system will enhance operational efficiency for the operator.

Speaking on the occasion Rahul Kanodia, Vice Chairman and CEO of Datamatics said, "Datamatics is the only Indian Company to have a robust AFC solution. Over the years, we have invested in building expertise in AFC technology and have been part of large global projects. In India, we are proud to be part of Lucknow Metro, Mumbai Metro, Kolkata Metro, Delhi-Meerut RRTS corridor and now the prestigious Pune Metro."

Bala Gopalakrishnan, President & Head of Digital Technologies at Datamatics, added, "Our next-generation, AI-enabled AFC solution is specifically designed to enhance commuter convenience. At Datamatics, we are committed to delivering the

DATAMATICS

project on schedule and ensuring ongoing support and upgrades for long-term success".

Over the last 25 years, the Company has been instrumental in successfully executing over 25 marquee projects in tier 1 metropolitan cities worldwide, including London, Hong Kong, Dubai, Melbourne, etc.
