DEEP IN DIGITAL. DEEP IN AI.

Artificial Intelligence (AI) is a transformative technology rapidly becoming essential in our lives. Datamatics views AI as a vast ocean of possibilities. With an AI-first approach, we help enterprises navigate this ocean, transforming industry norms and propelling them to new heights of efficiency, agility, and customer satisfaction. For the FY25, we remain bullish on the opportunities that AI presents to us. We have stepped up our investments in AI and are working closely with hyperscalers like Microsoft and Google. We have built our own customizable, small language model and copilot and we will be showcasing these capabilities at various customer forums in the coming year. We have also built an AI framework for our digital

experiences business. Through the financial year, we have executed 40 projects in AI. Furthermore, we have incorporated GenAI in our intelligent automation suite of products and have rolled it out to over 30 customers.

At Datamatics, we see significant opportunities in areas like artificial intelligence, intelligent automation, digital finance, data and analytics, cloud, and digital experiences. Datamatics is well-positioned to deliver end-to-end digital solutions and help enterprises go 'Deep in Digital' to boost their productivity, customer experience, and competitive advantage.

Strategic Focus

Driving growth through digital solutions

Empowering fortune 500 companies to excel in digital transformation, enhancing productivity, customer experience, and competitive advantage

We are entering the age of AI, a mega-trend set to transform businesses, industries, and our daily lives. Research shows AI is becoming the digital core, with generative AI driving this reinvention. Our AI-first approach meets significant demand in AI, intelligent automation, digital finance, data and analytics, cloud, and digital experiences. We have integrated generative AI into our Intelligent Automation suite and will continue to expand in these technologies in the coming years.

Datamatics will focus on hyperscalers such as Salesforce, Microsoft, and AWS, continuing to invest and strengthen its capabilities in these areas. Recently, Datamatics acquired Dextara Digital, a premier provider of Salesforce services. Additionally, Datamatics has developed a stronger partnership with Microsoft, featuring its products TruBot, TruCap+, and FINATO on the Microsoft Azure Marketplace.

AI-First approach: Datamatics enables enterprises to adopt an AI-First strategy, providing a roadmap to automate business processes across the organization. Datamatics AI Center of Excellence empowers businesses to initiate and scale AI initiatives for competitive advantage. By integrating advanced technologies and strategic insights, Datamatics drives enterprises toward new heights of efficiency, agility, and customer satisfaction.

Products & Platforms: Datamatics continues to develop as well as update its own IP solutions in the digital technology space. Datamatics Intelligent Automation Platform (IAP) is a unified platform to automate a series of tasks, processes, and unstructured and semi-structured data in documents. The IAP combines the capabilities of TruBot for Robotic Process Automation (RPA), TruCap+ for Intelligent Document Processing (IDP) along with artificial intelligence (AI)/machine learning (ML) models developed by Datamatics. Apart from this Datamatics has developed FINATO for AI-powered finance transformation, TruBI for business intelligence & data visualization and TruFare for Automatic Fare Collection (AFC).

Datamatics has built GenAI components in its products TruBot, TruCap+, and TruBI. Datamatics products TruBot, TruCap+, and TruBI are featuring on Microsoft Azure Marketplace. All these products and platforms are getting good traction in the market.

Account Penetration: Datamatics has customers across industries; many of these are Fortune 500 companies. Datamatics is focusing on deeper penetration within the customer accounts through account management for cross-selling and up-selling through its integrated sales and marketing efforts.

Branding & Marketing: Datamatics has been investing in marketing and branding efforts for increasing visibility, strengthening digital footprint and geographic reach. In FY24 Datamatics engaged with prospects and customers through events, conferences, seminars, and digital campaigns. We also hosted a grand New Year celebration party for our customers in Mumbai.

Business Overview

The advent of AI, with its potential for extensive automation, is accelerating the pace of workforce transformation.

We at Datamatics have embraced this vision of the future enterprise and are partnering with our customers on their journey of AI-powered digital transformation.

Worldwide IT spending is projected to total \$5.0 trillion in 2024, an increase of 6.8% from 2023. Despite continued global economic turbulence, all regions worldwide are projected to have positive IT spending growth in 2024.

Datamatics is helping enterprises go Deep in Digital with an AI-first approach. Datamatics has built a strong AI CoE, which has developed several AI-powered tools, such as KaiSDLC, a productivity tool that optimizes the software development lifecycle, and a business rule extraction tool for legacy codebases. These tools are helping our employees and customers leverage the power of AI to enhance productivity, streamline processes, and drive innovation. Datamatics has built GenAI components in its products TruBot, TruCap+ Intelligent Document Processing (IDP) and is seeing good traction from its customers.

Datamatics will focus on hyperscalers like Salesforce, Microsoft, and AWS. In line with this Datamatics recently acquired Dextara Digital, a platinum-level provider of Salesforce services. Additionally, Datamatics products TruBot, TruCap+, and TruBI are now featuring on the Microsoft Azure Marketplace. Going forward, we will continue expanding our footprint in these technologies.

“ Before Datamatics, we didn't understand visualizations, trend analysis & how you could look at data in a different way than just columns of data. The Datamatics journey has enabled us to really transform ourselves to get deep in digital transformation. ”

Chairman's Message

Dr. Lalit S. Kanodia
Founder and Chairman

The IT technology landscape, particularly in AI, continues to evolve rapidly. AI's ability to analyze vast data volumes and emulate human reasoning is revolutionizing industries. Datamatics is at the forefront of this transformation, with our AI-First approach driving innovation and efficiency.

Dear Shareholders,

As we reflect on the past year, I am delighted to share the achievements and advancements of your company, Datamatics Global Services Ltd. FY24 has been a year of significant milestones and industry recognition for your company.

The global economic landscape is gradually improving, with the World Economic Outlook projecting a growth rate of 3.2% in 2024. Datamatics has navigated the market challenges with resilience and strategic foresight. Our consolidated revenue for FY24 stood at ₹1,550 Crores, a growth of 6.2% over FY23, a testament to our robust business model and dedicated team.

The IT technology landscape, particularly in AI, continues to evolve rapidly. AI's ability to analyze vast data volumes and emulate human reasoning is revolutionizing industries. Datamatics is at the forefront of this transformation, with our AI-First approach driving innovation and efficiency. At Datamatics, we consistently invest in our research & development work on new, innovative and emerging technologies to create intelligent solutions for complex problems faced by enterprises. We were recently granted a patent for our proprietary AI-powered Intelligent Document Processing Software which is now called as TruCap+. This is a matter of great pride for me personally. Our efforts have not gone unnoticed. Datamatics has received numerous accolades, including recognition from Gartner, Everest Group, IDC, and ISG, among others. These recognitions underscore our commitment to excellence and innovation in digital technologies, digital operations, and digital experiences.

We also won a number of awards in the last year. Your company was recognized as Forbes Asia 200 Best Under a

Billion Companies 2023 as well as amongst India's Top 500 Value Creators 2023 by Dun & Bradstreet India. Datamatics was recognized by FINTECH India Innovation Award 2024 in the Best Customer Experience Service category for Automated Fare Collection Services. Additionally, Lumina Datamatics received the Operational Excellence through Digital Transformation Award at the 5th edition of the CII DX Awards 2023 and was awarded with IMC RBNQ Milestone Merit Recognition Awards in the Customers and Operations categories.

The Digital Technologies market is poised for continued growth, with worldwide IT spending projected to reach \$5.0 trillion in the coming year. Datamatics is well-prepared to capitalize on this growth. Our strategic focus on hyperscalers and key markets such as the US and Europe will further enhance our capabilities and market reach.

As we look to the future, Datamatics remains committed to building a sustainable and resilient organization. We will continue to invest in our people, technology, and partnerships to drive long-term value for our shareholders. I extend my heartfelt gratitude to our customers, shareholders, employees, and partners for their unwavering support and trust in Datamatics.

In conclusion, I am confident that your company is well-positioned to achieve new heights of success and growth in the coming years. Together, we will continue to drive innovation and excellence, creating value for all our stakeholders.

Vice Chairman & CEO's Message

Rahul L. Kanodia

Vice Chairman & Chief Executive Officer

During the year, Datamatics was adjudged as one of Forbes Asia's 200 Best Under A Billion Companies. This places Datamatics amongst the top 1% of 20,000 listed companies across Asia. In addition, Dun & Bradstreet recognized Datamatics as amongst the India's Top 500 Value Creators. These recognitions are a testimony to the value we have created for all our stakeholders, as well as our outstanding corporate performance over the years.

Dear Shareholders,

I would like to start my letter with two key recognitions we received in FY24. During the year, Datamatics was adjudged as one of Forbes Asia's 200 Best Under A Billion Companies. This places Datamatics amongst the top 1% of 20,000 listed companies across Asia. In addition, Dun & Bradstreet recognized Datamatics as amongst the India's Top 500 Value Creators. These recognitions are a testimony to the value we have created for all our stakeholders, as well as our outstanding corporate performance over the years. I take this opportunity to thank all our stakeholders, including employees, customers and shareholders, for being an integral part of our journey.

Despite industry headwinds, in FY24, Datamatics achieved a healthy growth of 6.2% with our consolidated revenue reaching ₹1,550 Crores. Our EBITDA margin for the year is at 15.7% with the consolidated EBITDA growing by 0.6% to ₹244 Crores.

As we step into FY25, we will continue to focus on the Western markets, strengthen capabilities along hyperscalers and penetrate deeper into existing accounts. In line with this, we recently acquired Dextara Digital, a platinum-level provider of Salesforce services. Dextara acquisition aligns with our growth strategy of focusing on hyperscalers and the US market. Dextara brings an extremely capable management team and a broad clientele across industries that is of specific interest to us. We believe with Dextara's strong credentials, we will be able to service our customers better and look forward to helping them go deep in Salesforce.

For the financial year FY25, we are optimistic about the opportunities that artificial intelligence presents. Recently, we became one of the first digital technology companies worldwide to receive ISO 42001:2023 Certification for AI Management Systems. This achievement will help our customers manage the risks and opportunities associated with AI, balancing innovation with governance.

Our investments in AI have increased, and we are collaborating closely with Microsoft and Google. We developed our own customizable small language model and copilot, which will be showcased at various customer forums throughout the coming year. One notable development is a Partner Onboarding Copilot powered by Microsoft Azure OpenAI, which was among the top three copilots featured by Microsoft at the Microsoft Build conference in Seattle, USA. Additionally, Microsoft recognized Datamatics as 'AI First Movers,' highlighting the recognition our AI solutions are receiving from industry leaders.

Our portfolio now includes several AI-powered tools, such as KaiSDLC, a productivity tool that optimizes the software development lifecycle, and a business rule extraction tool for legacy codebases. These tools are helping our employees and customers leverage the power of AI to enhance productivity, streamline processes, and drive innovation. Furthermore, an AI framework, SuperCX, has been built for our digital experience customers to incorporate digital interventions that drive customer satisfaction and brand loyalty.

To date, Datamatics has executed over 40 AI projects. We have integrated GenAI into our intelligent automation suite of products, including TruBot RPA, TruCap+ IDP, and TruBI Business Intelligence, and these solutions have been rolled out to over 30 customers.

Our management team has been strengthened by inducting several senior members, including Bala Gopalakrishnan to lead Digital Technologies, Dinesh Kumar VK to head Global Sales, and Sreekanth Lapala, founder of Dextara Digital, to spearhead our Salesforce business. Additionally, our mid-management and regional sales teams have been bolstered, and further enhancements to our team are planned for the coming year.

At Datamatics we strive to minimize the impact on environment and believe that environmental consideration should be integrated in our business activities. In the Philippines, the team participated in various activities supporting communities and livelihood projects with various marginalized communities, investing in children's education, including those with special needs, and blood donation drives in association with Red Cross Philippines. In India, we continue enabling employability in tier 3 cities while sponsoring education for young, gifted individuals from impoverished backgrounds to children with special needs. We are also supporting the training and preparation needs of some of India's top athletes and para-athletes who will be participating in the upcoming Olympics.

In FY25, our focus on AI, hyperscalers, and strategic markets, combined with our investments in R&D and technology, will drive our growth in the coming years. I want to express my gratitude to our valued shareholders, clients, partners, and employees for their continued support and dedication.

Yours Sincerely,

Rahul L. Kanodia

NOTES:

1. The Government of India, Ministry of Corporate Affairs has allowed conducting Annual General Meeting ("AGM") through Video Conferencing ("VC") or Other Audio Visual Means ("OAVM") and dispensed the personal presence of the Shareholders at the meeting. Accordingly, the Ministry of Corporate Affairs issued Circular No. 09/2023 dated September 25, 2023 read with Circular No. 14/2020 dated April 8, 2020 and Circular No. 17/2020 dated April 13, 2020 ("MCA Circulars") and Circular No. SEBI/HO/CFD/CMD2/CIR/P/2021/11 dated January 15, 2021, Circular No. SEBI/HO/DDHS/P/ CIR/2022/0063 dated May 13, 2022, Circular No. SEBI/HO/DDHS/DDHS-RACPOD1/P/CIR/2023/001 dated January 5, 2023 and Circular No. SEBI/HO/CFD/CFD-PoD-2/P/CIR/ 023/167 dated October 7, 2023 issued by the Securities and Exchange Board of India ("SEBI Circulars") prescribing the procedures and manner of conducting the AGM through VC/OAVM. In terms of the said circulars, 36th AGM of the Members of the Company is being held through VC/OAVM. **Hence, Members can attend and participate in the AGM through VC/OAVM only.** The deemed venue for the AGM of the Company shall be the Registered Office of the Company.
2. The Notice of the AGM along with the Annual Report for the financial year 2023-24 is being sent only by electronic mode to those Members whose email addresses are registered with the Company / Depositories as on Friday, July 5, 2024 in accordance with the aforesaid MCA and SEBI Circulars. Members may note that the Notice of AGM and Annual Report for the financial year 2023-24 will also be available on the Company's website www.datamatics.com, websites of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively, and on the website of NSDL at www.evoting.nsdl.com.
3. The statement pursuant to section 102 of the Companies Act, 2013 as amended (Act) setting out material facts concerning the business with respect to Item no. 4 and 5 forms part of this Notice. Additional information, pursuant to Regulation 36(3) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements), 2015 ("SEBI Listing Regulations") and Secretarial Standard -2 on General Meetings issued by the Institute of Company Secretaries of India, in respect of Director retiring by rotation seeking re-appointment at this AGM is annexed to this Notice.
4. Pursuant to the provisions of the Act, a Member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his/her behalf and the proxy need not be a Member of the Company. Since this AGM is being held pursuant to the MCA Circulars through VC/OAVM, physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by the Members will not be available for the AGM and hence the Proxy Form and Attendance Slip are not annexed to this Notice.
5. The Members can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the Meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available for 1000 members on first come first served basis. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of first come first served basis.
6. Institutional / Corporate Shareholders (i.e. other than individuals / HUF, NRI, etc.) are required to send a scanned copy (PDF/JPG Format) of its Board or governing body Resolution/Authorization etc., authorizing its representative to attend the AGM through VC/OAVM on its behalf and to vote through remote e-voting. The said Resolution/Authorization shall be sent to the Scrutinizer by email through its registered email address to swapneel@spassociates.co with a copy marked to evoting@nsdl.co.in.
7. As per Regulation 40 of SEBI Listing Regulations, as amended, securities of listed companies can be transferred only in dematerialized form with effect from, April 1, 2019, except in case of request received for transmission or transposition of securities. In view of this and to eliminate all risks associated with physical shares and for ease of portfolio management, members holding shares in physical form are requested to consider converting their holdings to dematerialized form. Members can contact the Company or Company's Registrars and Transfer Agents, Datamatics Business Solutions Limited ("DBSL") for assistance in this regard.
8. The Register of members and Share Transfer Books of the Company will be closed from Friday, July 26, 2024 to Thursday, August 01, 2024 (both days inclusive) in connection with the AGM and for the purpose of dividend.
9. The Company has fixed Thursday, July 25, 2024 as the "Record Date" for determining entitlement of Members to final dividend for the financial year ended March 31, 2024, if approved at the AGM.
10. The Final dividend of Rs. 5/- per share i.e. at the rate of 100% on face value of Rs. 5/- each for the year ended March 31, 2024, as recommended by the Board of Directors, if approved at the AGM, will be paid subject to deduction of tax at source ('TDS') on or from August 05, 2024 as under:
 - (i) To all Beneficial Owners in respect of shares held in dematerialized form as per the data as may be made available by the National Securities Depository Limited ("NSDL") and the Central Depository Services (India) Limited ("CDSL"), collectively "Depositories", as of end of day on Thursday, July 25, 2024;
 - (ii) To all Members in respect of shares held in physical form after giving effect to valid transmission or transposition requests lodged with the Company as of the close of business hours on Thursday, July 25, 2024.

11. Pursuant to the changes introduced to the Income Tax Act, 1961 by the Finance Act 2020, with effect from April 1, 2020, dividends paid or distributed by a Company are taxable in the hands of members, and the Company is required to deduct tax at source (TDS) at the prescribed rates on the dividend paid to its shareholders. The TDS rate would vary depending on the residential status of the shareholder and the documents submitted by them and accepted by the Company. In order to enable us to determine the applicable TDS rate, members are requested to submit the relevant documents on or before Thursday, July 25, 2024. A copy of the detailed communication regarding TDS on dividend, which was previously sent to the Shareholders by e-mail is available at the weblink - <https://www.datamatics.com/about-us/investor-relations/financials>. Members are requested to refer to the same for further details. Kindly note that no documents in respect of TDS would be accepted from members after Thursday, July 25, 2024.
12. **To support the 'Green Initiative', Members who have not yet registered their email addresses are requested to register the same with their DPs in case the shares are held by them in electronic form and with DBSL in case the shares are held by them in physical form.**
13. Members are requested to intimate changes, if any, pertaining to their name, postal address, email address, telephone/ mobile numbers, Permanent Account Number (PAN), mandates, nominations, power of attorney, bank details such as, name of the bank and branch details, bank account number, MICR code, IFSC code, etc., to their DPs in case the shares are held by them in electronic form and to DBSL in case the shares are held by them in physical form.
14. SEBI has mandated the submission of Permanent Account Number (PAN) by every participant in securities market. Members holding shares in electronic form are, therefore, requested to submit the PAN to their depository participants with whom they are maintaining their demat accounts. Members holding shares in physical form can submit their PAN details to DBSL.
15. As per the provisions of Section 72 of the Act, the facility for making nomination is available for the Members in respect of the shares held by them. Members who have not yet registered their nomination are requested to register the same by submitting Form No. SH-13. Members are requested to submit the said details to their DP in case the shares are held by them in electronic form and to DBSL in case the shares are held in physical form.
16. Members holding shares in physical form, in identical order of names, in more than one folio are requested to send to the Company or DBSL, the details of such folios together with the share certificates for consolidating their holdings in one folio. A consolidated share certificate will be issued to such Members after making requisite changes.
17. In case of joint holders, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company will be entitled to vote at the AGM.
18. Shareholders are requested to forward their queries on the annual report for the financial year ended March 31, 2024 to the Company on investors@datamatics.com on or before Thursday, July 25, 2024.
19. Members are requested to note that, dividends if not encashed for a consecutive period of 7 years from the date of transfer to Unpaid Dividend Account of the Company, are liable to be transferred to the Investor Education and Protection Fund ("IEPF"). The shares in respect of such unclaimed dividends are also liable to be transferred to the demat account of the IEPF Authority. In view of this, Members are requested to claim their dividends from the Company, within the stipulated timeline. The Members, whose unclaimed dividends/shares have been transferred to IEPF, may claim the same by making an online application to the IEPF Authority in web Form No. IEPF-5 available on www.iepf.gov.in. Members' attention is particularly drawn to the "Corporate Governance" section with respect to unclaimed and unpaid dividends.
20. Members attending the AGM through VC / OAVM shall be counted for the purpose of reckoning the quorum under Section 103 of the Act.
21. A person who is not a Member as on the cut-off date i.e. Thursday, July 25, 2024 should treat this Notice for information purposes only.
22. Since the AGM will be held through VC / OAVM, the Route Map is not annexed in this Notice.
23. **Instructions for voting through electronic means (e-voting):**
 - I. Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with the Companies (Management and Administration) Rules, 2014 and Regulation 44 of the SEBI Listing Regulations, the Company is pleased to provide to its Members facility to exercise their right to vote on resolutions proposed to be passed in the Meeting by electronic means.

Explanatory Statement

As required by Section 102 of the Companies Act, 2013 (the Act), the following Explanatory Statement sets out all material facts relating to the business mentioned under Item No.4 and 5 of the accompanying Notice dated May 08, 2024:

Item No. 4

Commission to Non-Executive Directors

The Members at the 31st Annual General Meeting had approved payment of commission to Non-Executive Directors of the Company not exceeding 0.25% per annum of the net profits of the Company for a period of 5 (Five) years i.e. upto March 31, 2024. The said commission was in addition to the sitting fees payable to the Directors for attending the meetings of the Board of Directors of the Company or any Committee thereof. It is proposed to continue with the payment of Commission to Non-Executive Directors of the Company.

The Company's Non-executive Directors are professionals with high level of expertise and have rich experience in functional areas such as business strategy, business development, corporate governance, finance & taxation, security-IT domain expertise, risk management amongst others. Non-executive Directors are actively involved in various decision-making process and are making valuable contributions towards business development, governance, long term strategy and compliances.

Hence, it is proposed that the Directors (other than the Managing Director and Whole-time Director(s) of the Company) be paid, for each of the 5 (Five) consecutive financial years commencing April 1, 2024 upto March 31, 2029, commission not exceeding 0.25% per annum of the net profits of the Company computed in accordance with the provisions of the Act. This commission will be distributed amongst all directors (other than the Managing Director and Whole-time Director(s) of the Company) in accordance with the directions given by the Board. Such commission would be in addition to the sitting fees payable for attending the meetings of the Board of Directors of the Company or any Committee thereof.

Non-executive Directors along with their relatives are deemed to be concerned or interested, financially or otherwise in the Resolution at Item No.4 of the Notice to the extent of the share of commission that may be received by them.

None of the other Directors, Key Managerial Personnel or their relatives are, in any way, concerned or interested, in the Resolution except to the extent of their shareholding interest, if any, in the Company.

The Board recommends passing of the proposed resolution as stated in Item No. 4 as Special Resolution and requests Members' approval for the same.

Item No. 5

Reclassification of Outgoing Promoters to "Public" shareholder category

Regulation 31A of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI Listing Regulations')

provides a mechanism regarding reclassification from "Promoter/ Promoter Group" category to "Public" Category.

Members are apprised that in terms of the said Regulation, the Company has received Request Letters dated May 07, 2024 from few members of Promoter/ Promoter Group for reclassification of their shareholding from the existing Promoter Group category to Public Shareholder Category in the Shareholding Pattern of the Company and/or at such other places wherever their name appears.

The members seeking reclassification (hereafter collectively referred to as the "Outgoing Promoters") and equity shares held by them in the Company is mentioned in the table below and are currently classified as "person belonging to the promoter group" in the Shareholding Pattern of the Company:

Further, the Outgoing Promoters have confirmed that subsequent to their reclassification, they shall continue to comply with the provisions of Regulation 31A(4) of the SEBI Listing Regulations.

Confirmation by the Company

As at the date of this Notice, the Company is compliant with the following conditions specified in Regulation 31A(3)(c) of the SEBI Listing Regulations and is accordingly competent to make an application to the Stock Exchanges for their approval for reclassification of status of the said Outgoing Promoters to 'Public' shareholder category.

- (1) The Company is in compliance with requirements of minimum public shareholding as required under Regulation 38 of the SEBI Listing Regulations;
- (2) The trading in equity shares of the Company have not been suspended by the Stock Exchanges where equity shares of the Company are listed;
- (3) The Company does not have outstanding dues to the SEBI, Stock Exchanges or the Depositories.

As at the date of this Notice, the total Promoter holding in the Company is at 66.44%. In the event, the reclassification is approved by the Members of the Company and the Stock Exchanges, the total Promoter holding in the Company shall reduce from 66.44% to 63.40%.

Board's Consideration and Recommendations

At their meeting held on May 08, 2024, Board of Directors of the Company analyzed the Request Letters received from the Outgoing Promoters and the confirmations therein as per the provisions of Regulation 31A of the SEBI Listing Regulations. Board also considered Company's confirmations in this matter and the impact of the proposed reclassification. Upon perusal of the above, Board of Directors of the Company approved the Reclassification Requests of the Outgoing Promoters, subject to approval of the Members and the Stock Exchanges.

None of the Outgoing Promoters and persons related to them

shall vote to approve the reclassification request as prescribed under the Regulations.

None of the Directors, Key Managerial Personnel of the Company or their relatives are, in any way, concerned or interested, financially or otherwise, in the resolutions set out at Item No.5, except to the extent of their shareholding as Member, if any.

The Board recommends passing of the proposed resolution as stated in Item No.5 as an Ordinary Resolution and requests Members' approval for the same.

Datamatics will scale talent globally, invest in employees and accelerate innovation and digital capabilities to capitalize on the expanding market opportunities. The company sees enormous potential to engage and partner with customers to help them go 'deep in digital' to enable transformation.

- **AI-first approach:** Datamatics has been actively investing in AI as technology. At Datamatics, we have developed a Center of Excellence to help customers start and scale their AI journey.
- **Focus on hyper scalars:** Datamatics will invest in building competencies in hyper scalars such as Microsoft, Salesforce, AWS, Snowflake, OutSystems, etc. Datamatics recently acquired Dextara Digital, a premier Salesforce partner, which aligns with this strategy.
- **Focus on the US, European markets:** Datamatics will continue to focus on the US and Europe markets by leveraging its regional sales teams. Datamatics will focus on digital transformation opportunities, including intelligent automation products, TruBot RPA and TruCap+ IDP to help clients achieve digital transformation. The company sees significant potential market in these two regions and plans to capitalize on the opportunities by expanding its presence and partnerships.

KEY BUSINESS DRIVERS FOR DATAMATICS IN FY 2023-24

- **AI-First approach:** Datamatics enables enterprises to adopt

an AI-First strategy, providing a roadmap to automate business processes across the organization. Datamatics AI Center of Excellence empowers businesses to initiate and scale AI initiatives for competitive advantage. By integrating advanced technologies and strategic insights, Datamatics drives enterprises toward new heights of efficiency, agility, and customer satisfaction.

- **Products & Platforms:** Datamatics continues to develop as well as update its own IP solutions in the digital technology space. Datamatics Intelligent Automation Platform (IAP) is a unified platform to automate a series of tasks, processes, and unstructured and semi-structured data in documents. The IAP combines the capabilities of TruBot for Robotic Process Automation (RPA), TruCap+ for Intelligent Document Processing (IDP) along with artificial intelligence (AI)/machine learning (ML) models developed by Datamatics. Apart from this Datamatics has developed FINATO for AI-powered finance transformation, TruBI for business intelligence & data visualization and TruFare for Automatic Fare Collection (AFC).

Datamatics has built GenAI components in its products TruBot Robotic Process Automation (RPA) and TruCap+ Intelligent Document Processing (IDP) and is seeing good traction from its customers. Datamatics products TruBot, TruCap+ and FINATO are featuring on Microsoft Azure Marketplace.

All these products and platforms are getting good traction in the market and the new logos in the marquee that we are getting, are extremely promising.

- **Account Penetration:** Datamatics has customers across industries; many of these are Fortune 500 companies. Datamatics is focusing on deeper penetration within the customer accounts through account management for cross-selling and up-selling through its integrated sales and marketing efforts.
- **Branding & Marketing:** Datamatics has been investing in marketing and branding efforts for increasing visibility, strengthening digital footprint and geographic reach. In FY24 Datamatics engaged with prospects and customers through events, conferences, seminars, and digital campaigns. The company also hosted a grand New Year celebration party for its customers in Mumbai.

Integration of AI into our operations, services & products

- **Products & Platforms:** Datamatics was an innovator last year by introducing Generative AI (GenAI) capabilities to all its intelligent automation platform products, much before some of the other players. Now, with GenAI, citizen developers can create bots with minimal input from the subject matter expert. Likewise, GenAI enhanced Intelligent Document Processing by delivering higher accuracy for complex document processing and faster implementation besides co-pilot for ontology creation, natural language, and contextual querying. Datamatics Intelligent Automation Platform (IAP), with AI at the core, is a unified platform to automate a series of tasks, process unstructured and semi-structured data in documents. The IAP combines the capabilities of TruBot for Robotic Process Automation (RPA), TruCap+ for Intelligent Document Processing (IDP) along with artificial intelligence (AI)/machine learning (ML) models developed by Datamatics. The IAP also integrates with business-specific models or BYOM, according to business requirements. Apart from this, Datamatics has developed TruBI for business intelligence & data visualization. Each of these automation solutions has underlying AI models that can be trained further to suit the business landscape.

In addition to developing its own IP solutions, Datamatics is investing in cloud partnerships and AI to drive innovation and growth for its clients. Datamatics has extended its Microsoft partnership further by integrating Microsoft Copilot and Azure OpenAI into its Intelligent Automation suite. We are one of the few Microsoft preferred partners to take their Copilot proposition across geographies for co-piloting application development and automating complex scenarios. Datamatics has the expertise to customize Microsoft Copilot to business requirements, modify existing copilots across the industry spectrum, and assess the business landscape to build a new Copilot for complex automations. Datamatics has also extended its product reach by hosting the Intelligent Automation suite of products on MS Azure Marketplace along with probable use cases and quick guidelines to jumpstart automation.

PATENT

Datamatics granted a patent for its AI-powered Intelligent Document Processing software TruCap+ i.e. 'SYSTEM AND METHOD OF AUTOMATED DOCUMENT PROCESSING FOR STRUCTURED, SEMI-STRUCTURED AND UNSTRUCTURED DOCUMENTS'.

Datamatics' Intelligent Document Processing (IDP) journey began nearly a decade ago. Over the years, the team has diligently integrated new technologies and features, establishing it as a leading solution in the IDP space – TruCap+.

Datamatics TruCap+ automates data extraction from complex structured, semi-structured and unstructured documents. With AI at the core, it enables template-free approach, delivers a greater straight-through processing (STP) with a high accuracy. TruCap+ offers an intuitive UI to deliver business users an efficiency driven solution. Its cloud-based architecture allows TruCap+ to scale on demand while meeting enterprise-grade standards for security, reliability, and integration.

Recently Datamatics further enhanced TruCap+ with GenAI capabilities. It enables customers to leverage the power of GenAI for processing complex and unstructured documents such as legal documents, financial statements, medical images, drawings, graphs, emails, etc. Additionally, it allows customers to query and analyze extracted data using natural language querying feature.

QUALITY

Quality forms the backbone of everything we do. It is an unnegotiable ingredient of the way a process, service and product is conceived, designed and delivered. A relentless focus on Customer delight, continuous process improvements and lean and efficient processes have been the hallmarks of the company for years. This is what provides us an edge over our competition, far and wide. A look at the average duration a customer has been happily associated with Datamatics is an eloquent testimony to our untiring commitment to quality. Quality at Datamatics is a legacy that is being ably carried forward by the present team as well. The industry has also been recognizing the company's performance. This year too, your company and its personnel featured prominently at various platforms by winning prestigious awards.

Your Company is the first and the only I.T. Company to have won the "International Asia Pacific Award" for Quality in services sector in the year 2007. The Award was won against competition from hundreds of companies from 38 countries spread across the world, including the US, Japan, Australia, New Zealand, Russia, Canada, China, Israel, South Korea, Peru and Mexico. Your Company also won the prestigious "IMC IT Award for Quality" in

January 2014. We have won the Global Quality Challenge award of one of the fortune 100 organizations for the ninth time.

Further significant initiatives of the Company towards quality are:

1) Certifications:

The Company's quality management systems (QMS) that forms the backbone of all the processes and the way day-to-day operations are carried out is a very comprehensive and robust standard that draws from a host of international standards and benchmarks. This includes ISO 9001:2015, SEI CMMI, ITIL, Agile, ISO 20000 and so on. Your Company has been recommended assessment at the highest maturity level, Level 5 for CMMI Ver 2.0 SVC model. This covers almost all the locations and services that we cater to. The QMS has also been successfully assessed and certified for ISO 9001:2015. During all the surveillance periodic assessment audits, there has been no major non-conformity observed. All the new centers that we added in the financial year have also been successfully assessed and certified to the above international standards. Keeping in line with the focus on Artificial Intelligence, we are in the advanced stages of getting our Artificial Intelligence Management Systems (AIMS) to ISO 42001 standard which is the latest international standard for AIMS.

As you are aware, with the growing complexity of the digital economy and the present pandemic situation where we have been forced to switch significantly to work from Home model, the threat on the information security and data also increases in terms of complexity and impact. Your company is fully aware of this challenge and we constantly keep upgrading our information security management systems (ISMS). Our operations and ISMS have been successfully assessed and are compliant to ISO 27001:2013, SSAE 16 SOC 1 and SOC2 and HIPAA requirements. As you would be aware, these standards are extremely important for Financial, Insurance and Healthcare industries. The Livonia and Philippines operations have also been successfully assessed and certified to PCI-DSS requirements. The IPR products, TruCap+ and TruBot have also been successfully assessed for SOC2+ requirements.

Our commitment to ensure a robust information security management system for our customers has been bolstered by these certifications. We have implemented Security Information and Event Management (SIEM) solution as well which will further strengthen the Information security management. During the COVID 19 lockdown and remote working methodology, there has been a palpable increase in the threat to information and data security. Pre-empting such threats we have secured our networks further, addressed end point vulnerabilities and implemented mechanisms and tools to address advanced persistent threats (APTs) from all kind of malware attacks. The company recently implemented EDR (End point Detection and Response) and MDR (Manage Detection and Response) solutions to further enhance our preparedness to any malware threats. We also implemented (MFA) Multiple Factor Authentication solutions to further enhance access and security controls around sensitive data and information being processed by the company. Vulnerability and penetration tests (VA/PT) are carried out regularly through internal as well as external agencies to make sure that our networks and servers are robust to any malicious attacks. We have tied up with an Industry Leader in the space of Cybersecurity management systems Upguard, to monitor and manage our security robustness. We are proud to share that the current score of 843 / 950 and a rating of A is well above the average score of 668 for the industry. There is an increased focus on employee awareness around

information security as well for proactive and preventive measures to thwart any malicious attack. There is a conscious thrust on risk management as an organization strategy and the risks and mitigation plans are reviewed regularly at all pertinent levels.

A lot of thrust has also been put in enhancing the overall project management skills of our project managers through formal PMP certification from PMI, USA.

GDPR REGULATIONS AND DATA PRIVACY ACT

As you would be aware, General Data Protection Regulations (GDPR), the most important regulation around data privacy in the European Union region came into force a couple of years back. All our contracts with the customers in the EU region have been revised to incorporate the requirements of GDPR. Our processes have been further strengthened around the GDPR requirements. A dedicated Data Protection Officer (DPO) has been appointed to address issues, if any, raised around GDPR compliance. All the relevant employees and management have been trained on GDPR principles and requirements. GDPR awareness is an integral part of the employee induction program.

We are also gearing our processes to address all the requirements of the Data Privacy Act of India. We plan to get assessed and certified to Data Privacy standard, ISO 27701.

2) Customer Satisfaction Tracking:

As you're aware, your Company conducts customer satisfaction surveys at the end of every major milestone to assess customer's perception of our services. The wholly automated survey asks the customers their feedback on a range of parameters that measure their near and long term perception about the Company.

We feel proud to share with you that we continue a stellar performance on this count. Your company scored 5.4 on overall satisfaction rating on a scale of 1-6, 1 being the lowest and 6 being the highest. Another highlight of this survey has been that 87% of the respondents have rated us in the top 2 boxes of the rating i.e. extremely satisfied and Delighted. 64 customers have rated us as delighted on all the parameters. 66% of respondents expressed "Insist" and "Prefer" to work with Datamatics on Quality of Engagement questionnaire. We believe that in the modern environment Customer Experience i.e. the impression that our customers make during their interaction with us, is extremely critical. Customer Experience, apart from the feedback on the hard deliverables, is an integral part of these surveys. We are glad to share that the results are extremely positive on this front.

Apart from this, the more frequent and real time Customer Feedback Capture mechanism that captures feedback through other formal and informal channels also reports an improving trend in the customer sentiment towards our processes and performance.

3) Continuous Improvement - Lean Six Sigma:

The Company has a mature and well-entrenched continuous improvement program. This program is based on the principles of Lean, Six Sigma and Kaizen. The program focusses on making our processes more efficient, productive, accurate and cost effective. The program continues to deliver significant benefits to the organization with improvements in productivity, efficiency, accuracy and customer satisfaction. Overall 490 Lean Six Sigma projects and 2120 Kaizens were successfully completed since 2007.

The Company has about 30 Six Sigma Green Belt and 60 Six Sigma White Belt certified professionals along with 6 Six Sigma Black Belt and 1 Six Sigma Master Black Belt certified professionals.

HUMAN RESOURCE MANAGEMENT

Building a diverse workforce is at the heart of Datamatics HR ethos, and we aspire to create an engaging workplace that attracts, retains, develops, and helps talent flourish. We are committed to offering a diverse and inclusive work environment, cultivating positive relationships, providing challenging assignments, and promoting growth opportunities based on meritocracy. As of March 31, 2024, Datamatics employed more than 9000 employees worldwide.

Datamatics continues to enthruse talent with high-impact roles, competitive and performance-driven pay with an emphasis on long-term incentives, a wealth of learning opportunities, a commitment to enhancing diversity, equity & inclusion, an employee-centric climate, well-being-focused infrastructure, and support that promotes fellowship and commitment amongst employees.

Our Global Annual Climate Survey was conducted with 88% participation, higher than last year's 87% participation. Continued positive strides in Organizational Culture and a healthy work environment were made as Datamatics was recognized as an 'Employee Friendly' organization four years in a row with significant progress in NPS, eSAT, and ePride scores. Datamatics also shared their awareness of Employee well-being - Datamatics Wheel of Well-Being & Mind Matters initiatives and our focus on AI.

Our consistent efforts were recognized on diverse platforms globally, enhancing our employer brand and attracting talent:

- **In India,**
 - Datamatics was recognized at The DivHERSity Awards in the Top20 Most Innovative Practices category.
 - Conferred with the "Maharashtra Best Employer Brand Awards 2023."
- **In the Philippines,**
 - Asia CEO Awards: Recognized as the "Executive Leadership Team of the Year" and "Expatriate Executive of the Year."

TALENT ACQUISITION

FY 2023-24 witnessed a marginal slowdown in the talent market compared to FY 22-23 & FY 21-22, but there is still a notable trend of candidates holding multiple offers. The Talent Acquisition (TA) team has effectively secured promising joining numbers, met SLAs, and maintained good offer-to-joining ratio and productivity levels.

Hiring gig workers remains constant, as compared to the previous year. The US market continues to stay stable; however, niche and key talent continue to remain in high demand.

The team delivered on the strategies adopted and planned initiatives to meet the defined goals. On Sourcing, the team continued to prioritize connecting with maximum candidates through various sourcing channels, both traditional and emerging. Mass interview drives were conducted as needed by the businesses. The candidate engagement process was effectively executed for every potential candidate individually, to ensure interest and enthusiasm for the Company.

The team continued to add new vendor partners across geographies, including a new background verification partner

for the UK and EU regions. The network has been actively utilized to maximize the spread of required closures. The team has regularly conducted desk research related to DGSL offerings and market intelligence regarding competitors, for all businesses. This year has also seen hiring an onboarding of senior strategic hires.

The team has stayed ahead of the curve with eminent industry practices relevant for AI-powered resume sourcing, assessments, interviewing, background verification and candidate engagement. Innovation has been the guiding principle towards relentless improvement, and the team has employed avant-garde strategies like brand-driven job posts, video interviewing, passive candidate engagement, research, social media usage, industry intelligence, and effective referral programs. It has also been a continuous effort to establish Datamatics as an Employer of Choice through powerful messaging around the key Employee Value Proposition.

LEARNING & DEVELOPMENT:

Datamatics DAT (Develop-Aspire-Transform), our learning buddy, plays a crucial role as our dedicated partner in driving learning and development throughout the organization. Through DAT, we offer a diverse range of learning opportunities that empower our employees to embark on a transformative journey of growth and excellence.

In collaboration with various Lines of Business (LOBs), we have led multiple learning interventions tailored to meet the unique needs of our workforce. Some notable initiatives include:

- **Eagles XI:** An exclusive Leadership Development program aimed at unlocking the potential of high achievers, with a focus on leveraging AI.
- **AI Learning Spectrum:** Our extensive AI program offers diverse courses tailored to individuals at all skill levels. Notably, 299 employees completed around 713 AI courses, collectively dedicating 6651 person-hours to this endeavour.
- **AI Powered Chatbot Training:** Over 1000 employees globally attended sessions to enhance their skills in generating informative and engaging responses through AI-powered ChatBots.
- **Power Automate:** More than 450 of our technical enthusiasts participated in sessions focused on unlocking the power of automation with Power Automate.
- **Leadership Talk V2.0:** Hosted a series of empowering Leadership Talks with over 4500 attendees since April 2023.
- **STEM (Step Towards Enhancing Me) Intervention:** Successfully completed a 7-months personal development program for 97 participants across multiple locations, resulting in improving communication and productivity improvement.
- **Fit to Lead Bootcamp:** Two batches of six-months supervisory program aimed at instilling core competencies for effective team leadership, with over 101 employees participating.
- **Gen AI Tech Day:** Organized a full-day workshop on Generative AI in collaboration with AWS, aiming to enhance the skills of our workforce.
- **Innovate Day:** Executed a collaborative event for the Inside Sales team, featuring internal and external speakers and inaugurated by our esteemed leadership.
- **Trainer Felicitation:** Recognized 42 Internal facilitators and SMEs for their significant contribution to strengthen our learning culture.

Specialized Technical Trainings: In addition to our comprehensive learning interventions, we placed a special focus on technical training such as Outsystems, Power BI, AWS, GenAI with Chat GPT, SSRS & SSIS, and .Net for freshers, ensuring our workforce remains equipped with cutting-edge skills to excel in today's dynamic business landscape.

Digital Learning Initiatives: Our digital learning initiatives witnessed significant enhancements, including renaming our in-house Learning Management System to Elevate, offering over 168+ learning modules, and featuring new courses catering to emerging technologies.

Partnership Support & Certifications: We strengthened our partnerships with industry leaders such as Microsoft and HubSpot, facilitating employee certifications and skill development, thereby reinforcing our commitment to excellence.

The L&D team at Datamatics continues to stay compliant by successfully completing various external audits, including IQA, ISO, client audits, ISMS audits, and others.

There has been a remarkable 116% surge in total person-hours of learning, thereby cementing a culture of continuous learning and development. We achieved 432,254 person hours (equivalent to 54,032 training days), averaging 7.54 days per person, compared to 374,149 person-hours (equivalent to 46,768 training days) from the previous fiscal year. Alongside an average feedback rating of 4.2 out of 5, our achievements signify the effectiveness of our learning initiatives, resulting in upskilling and cross-skilling of Datamaticians.

TALENT MANAGEMENT:

Through the year, the HR Centre of Excellence focused on developing the capabilities of identified Key Talent, establishing a performance-driven and appreciation-focused Culture, driving Diversity, Equity, and inclusion (DEI) in the workplace, Employer Branding, CSR initiatives and adopting GenAI capabilities, where feasible.

- **Establishing a performance-driven culture focused on professional development:**
 - Based on last year's Leadership Workout session analysis, a cohort-based immersive Senior Leadership Talent Development Program (SLTDP) was conducted for the Leadership team.
 - Enhanced competency-based focus, with internal benchmarks and practical learning applications for all key Talent interventions.
 - With due process rigour followed in the Promotion Board process, 92% key talent got promoted to next grade at a mid-senior level.
 - With the success of the pilot Datamatics Mentoring Program (DMP), we launched the next season of the Support Squad for some of our key talent globally.
- Through our online peer-to-peer recognition platform, **'Appreciate with Badges'**, globally, more than 4000+ unique Datamaticians were appreciated with 15000+ badges, with a substantial 40% increase in unique Datamaticians appreciated Talent@Datamatics globally.
- **DEI:**
 - **'Coffee, Cakes and Candid Chats'**, a DDC initiative were conducted by CHRO in the US (on Juneteenth) and in the

Philippines & Puducherry offices on #EmbracingEquity at the workplace.

- **Focused (Wo)Mentoring sessions** with Indian and International speakers were structured in a hybrid setup.
- **Our continued DEI efforts have been recognized globally** - Our CEO & Vice Chairman featured among 20+ Global Leaders and influencers across domains committed to women's advancement on the International Women's Day website for the second time. Simultaneously, our entire Senior Leadership team featured on the website as part of this year's #InspireInclusion campaign.
- With the **'We Heard You'** campaign, we sought the voice of Datamaticians and the HRBP team globally. We introduced process and tech enhancements which saw higher adoption rate.
- Throughout the year, a multi-dimensional Datamatics Wheel of Well-being campaign brought in initiatives related to Emotional and Mental Well-Being.
- **Launched a dedicated page on the website for the 'Datamatics Diversity Charter'** and an e-module (enabled by the L&D team) on 'Promoting DEI principles at the workplace'. The team ensured strategic positive visibility and increased Datamatics' social presence across all existing channels, covering themes like DEI, CSR and Mental Health.

CORPORATE HR:

The role of the HR function has undergone significant evolution to adapt to the changing needs of an agile organization. Here are the highlights of the key initiatives undertaken during the year:

- Datamatics maintained a strong focus on the Apprenticeship Program. The Board of Apprenticeship Training (BOAT) program was institutionalized across the locations. BOAT and NAPS programs promote basic and hands-on practical training at the workplace. We participated in the yearly state-level apprenticeship program in Maharashtra to train new job seekers through the Employment Promotion Programme (EPP). As of March 31, 2024, the company had 2122 youth apprentices trained across the in-demand industry skill sets.
- HR Due Diligence for acquisition of Dextara Digital was completed in-house, with the focus now shifting towards an integration roadmap.
- We created a conducive environment to promote the Blended (Work from Office, Work from Home, Work from Client Location, and Hybrid) workforce arrangement.
- The strengthening of the agile onboarding process ensured seamless onboarding and acclimatisation of the blended workforce across the locations.
- The quarterly Bonding Time session, a pivotal intervention to meet the remote new joiners' in person and establish connect, was leveraged around the year.
- The 30-60-90-day program, i.e. New Entrant Observation (NEO), provided a platform to understand and proactively address the new joiner's issues.
- We introduced the Employee Counselling Support Program, a valuable addition to our commitment to the Six Dimensions of Employee Wellbeing. We recognized the need to aid Datamaticians in managing personal challenges while working on their careers.
- HRBPs had almost 10,000 unique one-to-one employee connect sessions during the year.
- The HR function continues to leverage digital platform Ask HR and its online ticketing system to resolve employees' queries successfully.
- Employee-friendly flexible components were added to the CTC structure, offering an appealing opportunity for tax savings while efficiently planning the year's CTC payout.
- Monthly engagement activities were organized across locations through the HRBPs. The focus for the year was Financial and Health awareness among the employees. A few sessions were exclusively planned to benefit various employee demographics that were aligned with the Datamatics Diversity Charter.
- Reward & Recognition (R&R) programs and connect programs like Euphoria were leveraged for employee bonding and engagement beyond work.
- A consistently high score in the PS Client audit ensured our commitment to the client service standards.

US and Overseas HR Operations:

US HR continues to be a strategic business partner for all lines of business while maintaining compliance with all applicable US laws.

The US team continues to deliver a significant chunk of the business, specifically in our Tax area, CBLE (PSI) project, and GE Haer project. The USHR team supported talent acquisition, onboarding, retention, process audits. Under compliance, policies were reviewed, and improvements were implemented to have more cost-effective yet employee-friendly vacation and sick leave payouts. USHR supported all project-specific groups with compensation guidelines to improve billable rates and ensure better profit margins. USHR continues to be in a hybrid model for the workforce, working 3 days a week in the office.

Datamatics Overseas HR has initiated the Stichting Normering Arbeid (SNA) certification process for the Netherlands entity. The SNA certification will be an important milestone for the company as it will help us to sponsor the talent mobility from India.

Philippines Human Resource Operations:

Employee Value Proposition - Our comprehensive Employee Value Proposition framework has led to a much improved retention rate, focusing on holistic well-being programs aligned with Datamatics Wheel of Wellbeing, recognition and rewards, and continuous learning initiatives.

Automation/AI Initiatives: Our digital engagement core and AI-driven Applicant Tracking System have revolutionized employee engagement and hiring processes, ensuring efficiency and effectiveness.

- Datamatics Digital Engagement at Its Core - The Xoxoday platform, with its robust digital capabilities powered by Emplus, revolutionizes how we approach employee engagement. Providing a seamless, intuitive interface enables us to implement a wide range of engagement activities that resonate with the modern employee, right from recognition and rewards to surveys and feedback mechanisms.
- We employ Manatal's AI-driven Applicant Tracking System in tandem with SHL's robust assessment tools to thoroughly analyze job requirements and current market trends. This

dual-technology approach allows us to source candidates who are the best fit for the specific roles required for omnichannel support and have the potential to excel in these positions.

Hiring Delivery: We have achieved timely hiring and onboarding, fulfilling headcount requirements to support business operations. There was 100% schedule adherence, while successfully hiring 1,476 staff for ramp-up and backfill needs.

We showcased proficiency in recruiting for various bilingual positions, including European and APAC languages, and also demonstrated volume hiring capability by recruiting 260 Chat Support Agents within two weeks. We also prioritized internal recruitment to optimize hiring.

Benefits & Policy Enhancements:

With due commitment to our Datamatics Diversity Charter, the enhanced coverage for Health Benefits includes coverage for LGBTQ+ and elderly parents.

We have cost-effective health benefits premium for dependents, availability of dedicated facilities for LGBTQ+ employees. We introduced compensatory Time Off for managers required to work on holidays, in lieu of monetary compensation.

We Hear You Initiatives - Our 'We Hear You' initiatives ensure every voice is valued:

- **FGD:** Held biannually across all departments and projects.
- **Governance Calls:** Occur semi-monthly with Support Enablers POCs and Delivery Stakeholders; led and concluded by HRBP.
- **Surveys:** Conducted post all training sessions and employee engagement activities
- **HRBP Classroom Visits:** HRBPs attend all new classes to connect and assess new employees' sentiments.
- **ESAT Surveys:** Conducted quarterly to address concerns and gauge employee sentiment immediately.

Continuous Learning and Development:

Understanding our employees' unique and varied aspirations, we have carefully curated The FutureScape Learning Series to cater to our organization's wide array of learning needs. This series is a comprehensive compilation of seven distinct programs, each one the result of meticulous planning and a deep understanding of the specific developmental needs across different domains and organizational levels. Fit to Lead has been an immensely popular program for the managerial cadre.

CORPORATE SOCIAL RESPONSIBILITY:

This was a big year for us as we focused on giving back to the communities in various ways in India and the Philippines, focusing on 11 United Nations Sustainable Developmental Goals (UNSDGs). Our initiatives aim to positively impact various areas, from empowering marginalized groups to supporting education and healthcare.

- **In India:**
 - **Enabling Employability in Tier 3 Cities** – we continue to support employment opportunities in Tier 3 cities in India, including flexible working options. We respect the flexibility needs that capable and aspiring Talent, especially women, might have. Some roles offer flexible second innings and the opportunity to come 'Back to the Front' phase-wise, with experience and training adding

to future employability. We directly supported 1000+ trainees/ apprentices throughout the year.

- Sponsoring Education for underprivileged students:

- **Dakshana Foundation** - Focusing on poverty alleviation through education by identifying brilliant but impoverished teenagers and providing intensive coaching for 1-2 years for the IIT and medical entrance exams.
- **Tagore Govt. Arts & Science (Puducherry)** - Sponsoring Education for 15+ underprivileged students.
- **Ekam Foundation** - We supported the Education of some special children across various educational institutions and Unnati scholarship for a few girls.

- **Annam** - Supporting underprivileged children and women through concentrated nutrition supplements.

- **Olympic Gold Quest** - Supporting the training and preparation of India's top athletes. Overall, 12 Athletes and 12 Para athletes supported in 8 sports - Archery, Athletics, Badminton, Boxing, Powerlifting, Shooting, Table tennis, and Wrestling. This included training, Sports Science, Coaching, Equipment & sports kit, Expert Coaches Program, Athlete Management & Performance Monitoring and other Administrative Costs.

- **Sponsored a water recycling plant** for a Govt. College in Puducherry, thereby reducing water consumption from the ground, recycling used water and supporting the sustainable environmental needs of the 18 acres of Green Campus.

● In the Philippines:

- **Banca Awarding to Fisherfolks:** Awarded motorized fishing boats to three fishermen supplying 70,000 residents, providing opportunities for better livelihoods.

- **Invest in Kids, Invest in Dreams:** Supported 100 kindergarten students with school supplies and food packs, promoting education.

- **Supporting Public Education:** Contributed to Rizal High School for facility maintenance and fostering education.

- **Livelihood Project for Women:** Empowered 12 women's groups across Real, Quezon, with training sessions and computer units for enhanced livelihood opportunities.

- **Special Needs Children's Education:** Donated art supplies and equipment to 175 special needs students in Calamba.

- **Blood Donation Drive:** Contributed 46 blood bags to the Red Cross Philippines Blood Bank, making a significant difference in emergencies.

Additionally,

- The CEO and CHRO were part of the Rotary Global Leadership Summit at Mumbai. The CEO shared his insights on AI with an august audience from Industry and Academia. The CHRO moderated a roundtable with esteemed Speakers from diverse Industries and Academia, on the subject of building organization capability for competitive advantage in the digital age.

- Being a Socially conscious and Community-driven organization, we continue to welcome New Joiners with a canvas bag from the Shraddha Charitable Trust, Mumbai, which provides vocational training to autistic & mentally challenged young adults - as part of our ongoing Bonding Time sessions.
- Employees of Datamatics participated in the Helmet Rally in association with Traffic PS (North), Puducherry.

SCHEME OF AMALGAMATION

The Board of Directors of the Company, at its meeting held on March 04, 2022, had considered and approved a scheme of amalgamation ("Scheme") pursuant to Sections 230 to 232 and other applicable provisions of the Act and the rules and/or regulations made thereunder, providing for the merger of its holding Company, Delta Infolutions Private Limited ("Delta"/"Transferor Company") with and into Datamatics Global Services Limited ('the Company'/Transferee

Company') and their respective shareholders.

As mentioned in the last Annual Report of your Company, the proposed Amalgamation will result in the promoters of the Company directly holding shares in Delta, which will lead not only to simplification of the shareholding structure and reduction of shareholding tiers but also demonstrate the promoter group's direct commitment to and engagement with the Company. There would be no change in the paid-up share capital and the financial position of the Company post Amalgamation.

The Company had received in principle approval from both the stock exchanges conveying their no objection to the Scheme and subsequently the parties to the Scheme inter alia filed a 'Company Scheme Application' before National Company Law Tribunal ('NCLT') seeking direction for convening the meeting of the shareholders for approval of the scheme of Amalgamation. The NCLT vide its Order dated June 22, 2023 directed to hold a meeting of Equity Shareholders of the Company on August 08, 2023.

Thereafter, a meeting of Equity Shareholders was held on August 08, 2023, wherein the Scheme of Amalgamation was approved by requisite majority of shareholders in accordance with the provisions of the Section 230 and 232 of the Companies Act, 2013 and SEBI Master Circular No. SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 20, 2023, as amended from time to time.

Further, a meeting of Unsecured Creditors was held on December 19, 2023, wherein the Scheme of Amalgamation was approved by requisite majority of unsecured creditors in accordance with the provisions of the Section 230 and 232 of the Companies Act, 2013 and SEBI Master Circular No. SEBI/HO/CFD/POD-2/P/CIR/2023/93 dated June 20, 2023, as amended from time to time.

Thereafter, the parties to the Scheme filed a 'Company Scheme Petition' before the Hon'ble NCLT Mumbai Bench seeking sanction of the Scheme.

The NCLT vide its Order dated February 13, 2024 pronounced the Order sanctioning the abovementioned Scheme. A certified copy of the said Order was filed with the Office of the Registrar of Companies, Mumbai on February 24, 2024 ('Effective Date'), and as a result Transferor Company stands amalgamated with the Company effective from April 01, 2021 ('Appointed Date').

In accordance with the Scheme, the holding of 3,20,98,742 Equity Shares of Transferor Company in the Transferee Company was cancelled and Board of Directors of the Company at its meeting held on March 21, 2024 issued and allotted 3,20,98,742 Equity Shares of the Company to the Equity Shareholders of Transferor Company in equal proportion to their holding in Transferor Company.

I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2024 according to the provisions of:

1. The Companies Act, 2013 ("the Act") and the rules made thereunder.
2. The Securities and Exchange Board of India (Depositories and Participants) Regulations, 2018.
3. Secretarial Standards issued by The Institute of Company Secretaries of India.

During the period under review the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards etc. mentioned above.

During the Audit Period, no law was specifically applicable to the Company.

During the Audit Period, the following Acts, Regulations and Guidelines were not applicable to the Company.

1. The Securities Contracts (Regulation) Act, 1956 and the rules made thereunder.
2. The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client.
3. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011.
4. The Securities and Exchange Board of India (Prohibition of Insider

Trading) Regulations, 2015.

5. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018.
6. The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014.
7. The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009.
8. The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018.
9. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder with respect to External Commercial Borrowings.
10. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent applicable to the Foreign Direct Investment and Overseas Direct Investment.

I further report that -

The Board of Directors of the Company is duly constituted with proper balance of Executive and Non-Executive Directors. The changes in the composition of the Board of Directors that took place during the Audit Period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all the Directors to schedule the Board Meetings, agenda and detailed notes on agenda were generally sent at least seven days in advance; and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

During the Audit Period, all decisions at Board Meetings and Committee Meetings were carried out unanimously.

I further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

26. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications:

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	GHG emissions and carbon emissions	Risk	In the IT and BPM sector, data centers and electronic devices are used. The operation of this equipment is an energy-intensive activity and generates significant direct and indirect greenhouse gas (GHG) emissions, including carbon dioxide and methane from fuel use. Uncontrolled pollutants, emissions and associated activities impose legal and environmental risks for the company.	Leveraging cloud and other Green IT technologies, implementing energy efficient lights helps us to reduce our carbon footprint.	Negative

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
2	Energy management	Risk	Energy management can be a potential risk for various companies. In the context of an IT company, energy management risk can be significant due to the high energy consumption of data centres and other IT infrastructure. Similarly, IT companies may be vulnerable to disruptions in the energy supply chain, such as power outages or fuel shortages, which can impact the availability and reliability of their IT systems. Also many countries and regions have environmental regulations that impose restrictions on energy consumption and carbon emissions. Failure to comply with these regulations can result in fines and other penalties.	Our strategies include using green technologies such as cloud, to further reduce our environment footprint and impact along with usage and promotion of third-party renewable energy sources.	Negative
3	Human Rights	Risk	Companies focusing on respecting human rights demonstrate their commitment to building sustainable and mutually beneficial relationships with those who are influenced or impacted by their operations, such as customers, communities, workers, and investors. This includes demonstrating that they care about the people whose lives they engage with.	Develop clear policies and guidelines that governs the human rights. Establishment of confidential reporting channel for the employees to report human rights concerns.	Negative
4	Employee Engagement, Diversity & Inclusion	Opportunity	A company's high diversity and inclusion rate reflects employees' sense of belonging and fairness within the Company. Improving diversity and inclusion helps companies to support vulnerable groups resulting in community brand image creation for the company.	Our strategies include implementing policies to prevent discrimination, fostering a culture of respect and inclusivity, and promoting diversity in hiring practices. This enables us to be bring many diverse ideas and cater to larger set of clients.	Positive
5	Customer responsibility and Satisfaction	Opportunity	Customer satisfaction is a key indicator of success. A poor customer experience relationship can pose a risk of loss of existing customers or decrease in customer loyalty. Similarly, loss of customers and damage to reputation can lead to decline in sales and revenue.	Organization uses matrix and data to track customer satisfaction and identify area of improvement.	Positive
6	Employee well-being and health	Risk	Employee wellbeing is one crucial risk for the company. BPM companies often deal with complex and high-volume workloads, leading to a high-stress work environment for employees. Jobs in IT and BPM require sitting for extended periods, leading to a sedentary lifestyle that can lead to various health problems and sometimes experience mental health issues such as anxiety, depression, and stress due to workload pressure.	Employee wellness is a top priority of Data-matics. Some of our strategies include implementing safety protocols, providing access to healthcare resources, and promoting healthy lifestyles for all employees.	Negative

7	Talent Attraction & Retention	Opportunity	Talent attraction and retention is a significant risk for BPM and IT companies due to the highly competitive nature of the industry and the demand for specialized skills. Similarly, BPM companies may experience high turnover rates due to factors such as job dissatisfaction, lack of career growth opportunities, and inadequate compensation and benefits.	Our strategies include providing employees with opportunities for professional development and education, as well as creating a diverse and inclusive workforce culture.	Positive
8	Service quality and delivery	Opportunity	BPM companies can leverage service quality and delivery to gain a competitive edge in the industry, build customer loyalty, and increase revenue. BPM companies can optimize their processes to ensure efficient and effective delivery of services. This can include using automation, process mapping, and continuous improvement methodologies.	Our organization work on standardizing processes to ensure consistent quality and timely delivery of services. We focused on understanding the needs and expectation of our customer, aligning processes to deliver services that meet or exceed those expectations.	Positive
9	Community Giving	Opportunity	Environmental policy, community health, and process safety have significant regulatory, operational, financial, and reputational ramifications for companies. Building strong relationships with communities can help companies to mitigate potential operational disruption, reduce regulatory risk, retain top employees, lower the risk of litigation expenses in the event of process safety incidents, and ensure a strong social license to operate. Process safety incidents jeopardise community health and safety, resulting in regulatory penalties, legal action, and mitigating expenses.	Our strategies include engaging in philanthropic initiatives, supporting local businesses, volunteering employee time and promoting economic development. Increasing community activity enables us to create future Datamatics first-class employees.	Positive
10	Data Privacy & Cyber Security	Risk	Companies are assessed based on the amount of personal data they collect, their exposure to evolving or increasing privacy regulations, their vulnerability to potential data breaches, and their data protection systems.	We have implemented a robust set of security measure and controls to protect against cyber threats and safeguard and protect sensitive data of Datamatics and our clients.	Negative
11	Training and development	Opportunity	Training and development are essential to the success of any IT and BPM organization. Companies that invests in employee training and development can increase their competitiveness, improve their workforce's skills and knowledge, and promote a culture of continuous learning and development.	The Company offers various learning and training program to its employees. It helps employees to leverage on all the new technology courses & learnings. Datamatics partners with Future Skills Prime (FSP), a first of its kind government & Industry partnership to drive a national skilling ecosystem for digital technologies (Geo-India).	Positive

12	Ethics and compliance	Risk	The key issue relevant to business ethics and management of business ethics issues such as fraud, executive misconduct, corrupt practices, money laundering, or anti-trust violations. Ethics violations can lead to police investigations, hefty fines, settlement costs, and damage to reputation.	Our intention and ambition are to operate ethical under all circumstances. Our strategies to mitigate include establishing a code of conduct, implementing compliance and ethics training programs, and holding employees accountable for ethical violations.	Negative
13	Corporate governance	Risk	Businesses are assessed based on their performance across all key governance issues, which include ownership & control, Board pay, accounting, business ethics, and tax transparency. This topic examines the effect that a company's corporate governance and business ethics practices have on its shareholders and other investors.	Our strategies include implementing ethical and transparent business practices, establishing effective risk management strategies, and ensuring compliance with regulatory requirements.	Negative

Management Discussion and Analysis

Introduction

AI is revolutionizing industries, automating tasks, and offering insights into customer behavior. With 90% of the world's data created in the last two years, AI's role in analyzing data and making informed decisions is crucial. In today's business landscape, digital transformation is essential for adapting to market shifts. AI's ability to emulate human reasoning accelerates this transformation, propelling companies towards efficiency and agility in an era of rapid change.

Datamatics is well-positioned to deliver end-to-end digital solutions and help enterprises go 'Deep in Digital' to boost their productivity, customer experience, and competitive advantage. Datamatics is optimistic about areas like intelligent process automation, dynamic content management, digital experiences, and AI-driven analytics. To stay at the forefront of the digital transformation wave, Datamatics continues to expand its expertise in Digital Technologies, Digital Operations, and Digital Experiences. The company invests in the latest technologies and best practices to help enterprises achieve their digital transformation goals.

A. Economic Environment

According to the World Economic Outlook report of April 2024, the global growth rate is expected to increase to 3.2% in 2024 from 2.8% in 2023. However, the rate of growth is still low by historical standards due to various factors. These include high borrowing costs, reduced fiscal support, geopolitical tensions, weak productivity growth, and increasing geoeconomic fragmentation.

As per the World Economic Outlook Update, April 2024, the key forecasts for markets are as follows:

- The forecast for the United States shows growth increasing from 2.5% in 2023 to 2.7% in 2024. However, it is also expected to experience a slowdown in 2025, with a growth rate of 1.9% due to gradual fiscal tightening and a softening in labor markets, which will impact overall demand.
- The current environment is marked by uncertainty due to the upcoming US Presidential election, which is particularly significant as the US is our largest market and the ongoing conflicts in Ukraine and Gaza. Additionally, high interest rates and a slow job market are contributing to the overall sluggishness.
- The forecast for Europe is subdued, with only a marginal recovery expected from an estimated 0.4% growth rate in 2023 to a mere 0.8% in 2024 and 1.5% in 2025. This sluggish recovery is predicted to be driven by a slight improvement in household consumption as the severe impact of energy price shocks gradually lessens. However, with inflation expected to fall only modestly, a more robust recovery is doubtful.
- The forecast for the United Kingdom indicates marginal growth, rising from an estimated 0.1% in 2023 to 0.5% in 2024 as the negative effects of high energy prices subside. Growth is expected to increase further to 1.5% in 2025 as easing inflation improves financial conditions and allows real incomes to recover.
- Growth in India is projected to remain robust. The economy is expected to grow from 7.8% in 2023 to 6.8% in 2024 and 6.5% in 2025, driven by strong domestic demand and a growing number of working-age people.

Industry Review

Digital Technologies

- Worldwide IT spending is projected to total \$5 trillion in 2024, an increase of 8% from 2023. Planning for GenAI initiatives will be a key driver for IT spending in 2024 and beyond.
- IT services will continue to see an increase in growth in 2024, becoming the largest segment of IT spending for the first time. Spending on IT services is expected to grow by 9.7% in 2024, reaching \$1.5 trillion. This is largely due to enterprises investing in organizational efficiency and optimization projects.
- Datamatics has an AI-First approach at the core of its Digital Technologies. Datamatics has built a strong AI Centre of Excellence (CoE), which has developed several AI-powered market-ready solutions such as TruSDLC, a productivity tool that optimizes the software development lifecycle, and a business rule extraction tool for legacy codebases. The company has also developed customizable small language model and copilots. These solutions are helping our employees and customers leverage the power of AI to enhance productivity, streamline processes, and drive innovation. Datamatics has built GenAI into its products TruBot in Robotic Process Automation (RPA), TruCap+ in Intelligent Document Processing (IDP), and TruBI in business intelligence and data visualization; and is seeing good traction from its customers.
- Datamatics as a strategy will focus on hyperscalers such as Salesforce, Microsoft, and AWS and will further continue to invest and strengthen its capabilities in these hyperscalers. As part of this Datamatics recently acquired Dextara Digital, a platinum-level provider of Salesforce services. Datamatics has also developed a stronger partnership with Microsoft with its products TruBot, TruCap+ and TruBI featuring on Microsoft Azure Marketplace. The company will continue to strengthen its footprint in these technologies in the years to come.

Digital Operations

- The Finance & Accounting Outsourcing (FAO) market is projected to total \$13.3 billion, an increase of around 10% from 2023. The FAO market is likely to grow at 9-10% and is estimated to be \$16.5 Billion in 2025.
- Datamatics Digital Operations team is equipped with digitally augmented suite of technologies powered by artificial intelligence and machine learning. Datamatics FINATO, an AI-powered finance transformation product enables automation across procure-to-pay, order-to-cash, record-to-report and financial planning and analysis.

- Market trends indicate rapid growth in AI-driven content strategies. Lumina Datamatics is a pioneer in transforming digital content management, leading with innovative solutions that leverage AI to optimize workflows, enhance user engagement, and personalize experiences.

Digital Experiences

- The global contact center market is projected to total \$98.4 billion in 2024 and accelerate at CAGR of 18% to reach \$161.7 billion in 2027. In 2024, we will see the contact center market work towards taking a digital-first approach and reduce costs while focusing on enhanced customer and agent experience.
- Datamatics Digital Experiences has embraced a digital-first paradigm to leverage AI and integrate intelligent solutions into our operations. Our multilingual and omnichannel centers, strategically located in the Philippines, India, and the USA, are staffed by 'Super Agents' trained to understand the essence of our clients' brand. Our offerings ensure superior customer experience, foster business growth, and enhance customer satisfaction and loyalty.
- Our offerings encompass Cloud, Communication, Process Optimization, Training, Quality, Lead Generation and Nurturing, CSAT, Workforce Management, and Analytics. We have developed an AI framework, SuperCX, for our digital experience customers to incorporate digital interventions that drive customer satisfaction and brand loyalty. Additionally, we deliver advanced analytics, customer journey management, NPS measurement, mystery audits, data visualization, and digital proctoring services across the entire customer experience continuum.

C. Business drivers

- AI Innovations and Collaborations:** For the financial year FY25, we are excited about the opportunities that artificial intelligence presents. Recently, we became one of the first digital technology companies worldwide to receive ISO 42001:2023 Certification for AI Management Systems. This achievement will help our customers manage AI-related risks and opportunities, balancing innovation with governance. We are collaborating closely with Microsoft and Google. We have developed our own customizable small language model and copilot, which will be showcased at various customer forums throughout the coming year. One notable development is a Partner Onboarding Copilot powered by Microsoft Azure OpenAI, which was among the top three copilots featured by Microsoft at the Microsoft Build conference. Additionally, Microsoft recognized Datamatics as 'AI First Movers'. To date, Datamatics has executed over 40 AI projects.
- Global Management Team:** Over the past year, we have strengthened our management team with proven leaders with vast experience in digital transformation services. We have inducted Bala Gopalakrishnan to lead Digital Technologies, Dinesh Kumar VK to head Global Sales, and Sreekanth Lapala, founder of Dextara Digital, to spearhead our Salesforce business. Additionally, our mid-management and regional sales teams have been strengthened.
- Products & Platforms:** Datamatics continues to develop as well as update its own IP solutions in the digital technology space. Datamatics Intelligent Automation Platform (IAP) is a unified platform to automate a series of tasks, processes, and unstructured and semi-structured data in documents. The IAP combines the capabilities of TruBot for Robotic Process Automation (RPA), TruCap+ for Intelligent Document Processing (IDP) along with artificial intelligence (AI)/machine learning (ML) models developed by Datamatics. Apart from this Datamatics has developed FINATO for AI-powered finance transformation, and TruBI for business intelligence & data visualization.

Datamatics has incorporated GenAI in its intelligent automation suite of products and has rolled it out to over 30 customers. Datamatics products TruBot, TruCap+ and TruBI are also featuring on Microsoft Azure Marketplace.
- Account Penetration:** Datamatics has customers across industries, many of which are Fortune 500 companies. Datamatics is focusing on deeper penetration within customer accounts through account management, cross-selling, and upselling through its integrated sales and marketing efforts.
- Branding & Marketing:** Datamatics has been investing in marketing and branding efforts to increase visibility, strengthen its digital footprint, and expand its geographic reach. In FY24, Datamatics engaged with prospects and customers through events, conferences, seminars, and digital campaigns. We also hosted a grand New Year celebration party for our customers in Mumbai.

D. Business performance

Datamatics consolidated revenue for the year was at ₹ 15499 Cr., a growth of 6.2% over previous year. Our consolidated EBIT stood at ₹ 2077 Cr. Consolidated EBIT margin was at 13.4%.

Digital Technologies including Digital Transformation Service & Intelligent Automation- constitute 39%. On the other hand,

Digital Operations including Digital Finance & Digital Content constitute 45% and Digital Experience including Customer Experience & Research & Analytics constitute 16% of total revenues. The revenues from Digital Technologies solutions grew by 0.4%, Digital Operations grew by 10.1% and Digital Experiences grew by 11.2% over the previous year.

F. Risk management

The Company's global operations bring in considerable complexities and in response to that, Datamatics has established a robust enterprise risk and compliance management framework and process. This process provides an enterprise-wide view of risks and compliance which enables it to take a more holistic approach towards informed decision making. Some significant risks that could hinder Company operations are identified below:

Global Economic Risk

Datamatics derives majority of its revenues from overseas geographies. The changing economic conditions, inflation, reforms in tax laws, fiscal and monetary policies in these markets could enhance cost pressure and affect the Company adversely in several ways. The Company may also witness price reduction, lose key projects and customers, deterring financial performance.

Datamatics mitigates global economic risk by generating business from new market segments and enhances steeper growth in geographies other than the US and Europe.

Employee Related Risks

Datamatics' business is dependent on the quality of its workforce. Company's inability to attract, retain and motivate key employees would impair its ability to offer the right quality of service to the clients.

As a talent-driven organization, the Company's key goal is to have the best talent, with highly specialized skills in every business vertical, at the right levels and at the right locations, to enhance differentiation and competitiveness.

It strives to maintain its position as the employer of choice. Its Human Resources Department (HRD), is aligned with the Company's vision to attract, retain, and nurture high-quality talent.

The Company consistently tries to create a culture of learning and continuous improvement, to build and grow employee's

career, across all HR functions.

Headcount

The total number of Employees including subsidiaries as on March 31, 2024 was 12,311 as against 12,463 as on March 31, 2023.

Business Continuity and Information Security

Datamatics is fully aware of Business Continuity risks arising out of global disruptions such as natural disasters, IT outages, cyber threats, pandemic, terror and unrest, power disruptions, to name a few. This is likely to hinder availability of people and process, technology and infrastructure.

The Company has a well-defined, robust and tested Business Continuity Plan (BCP) and Disaster Recovery (DR) processes in place. There are primary and secondary locations identified and equipped with the necessary infrastructure and facilities to ensure that the business processes can continue uninterrupted. There are dedicated, trained and empowered cross-functional teams at various levels in all locations to ensure that the BCP and DR processes are implemented in shortest possible times. Readiness according to the BCP and DR processes are regularly tested through surprise mock drills and audits. The audit and mock-drill findings are reviewed by senior management in Management Information Security Forum (MISF). In the past, the readiness was successfully verified in real scenario during the floods in Nasik and Chennai / Puducherry locations. The Company could bring up customer processes at the BCP and DR locations well-within the defined timelines. The Company was appreciated by customers for the several such occasions.

The Company's operations and ISMS have been successfully assessed and are compliant to ISO 27001:2013, ISO 9001: 2015, SSAE 18 SOC 1 and SOC2 requirements and HIPAA requirements. The Company has PCI-DSS certification. These standards are extremely important for financial, insurance and healthcare industries.

Moreover, Datamatics successfully implemented Security Information and Event Management (SIEM) solution, strengthening Information security management framework.

Competition Risk

The technology market is evolving at a lightning speed. The world is moving towards smart automation and the emerging digital technologies are disrupting and changing the paradigm of business operations across Industries. This enhances the risk of competition. Datamatics manages to mitigate the competition risk by adopting the following measures:

- Datamatics invests in new technologies and product development in Robotics, Artificial Intelligence, Mobility and Analytics and consistently updates its own IP solutions in the digital technology space.
- With rapid urbanization, Datamatics is focusing on areas such as Automated Fare Collection, Smart Gates, and Contactless Gates service offerings to name a few. Datamatics has deep domain knowledge, skilled professionals, delivery capabilities and efficient sales force along with relationship managers to help retain its competitive positioning amongst peers.
- Adopting a customer centric approach together with its ability to innovate customer specific solutions, through its in-house incubation hub, DataLabs, Datamatics conducts research and development based on emerging trends and cutting-edge technologies.
- Datamatics aggressively invests in widening its partner network and believes that the evolving partner ecosystem will increase sales momentum and ensure smooth implementation and support for Datamatics IP solutions globally.

Legal and Regulatory Compliance Risk

Datamatics is exposed to greater compliance risks than ever before due to its presence in multiple developed and developing countries. Data Privacy and protection of personal data is a high priority concern globally. Legislations such as General Data Protection Regulation (GDPR) in Europe and California Consumer Privacy Act (CCPA) in the United States carry severe consequences for non-compliance or breach. Any violation or security breach, non-compliance or inadequacy of privacy policies and procedures can result in substantive liabilities, penalties and reputation impact.

To keep the Company protected against the risk of data privacy breach, all its contracts with the customers in the EU region have been revised to incorporate GDPR requirements. A dedicated Data Protection Officer (DPO) has been appointed to address issues, if any, raised around GDPR compliance. Regular online training and workshops on Data Privacy and GDPR are conducted to foster a culture of awareness and responsibility among its employees. GDPR awareness is an integral part of the employee induction program.

Datamatics also uses services of professional consultants under the supervision of its dedicated in-house compliance team which is equipped to anticipate compliance risks and ensure compliance with domestic as well as overseas laws and regulations. Changes in the applicable regulations are

monitored and tracked on a global basis.

Currency Risk

Datamatics derives majority revenues in foreign currencies. Volatility in currency exchange movements negatively impacts Company's financial performance. Through appropriate hedging strategy and business marketing practices aligned with market best practices, the management team takes adequate steps to minimize currency-related value erosion. The Company consistently reviews economic scenario and updates policies accordingly.

Internal Control Systems and their Adequacy

Datamatics has mechanisms in place to establish and maintain adequate internal controls over all operational and financial functions. The Company intends to undertake further measures as necessary in line with its intent to adhere to procedures, guidelines, and regulations as applicable in a transparent manner.

The Company has appointed, M/s. Ajmera & Ajmera, Chartered Accountants, Mumbai as Internal Auditors of the Company. During the year, the Internal Auditor has carried out Company audit on significant areas affecting the Company's business. The Audit Committee reviews its findings and recommendations at periodic intervals.

The Company's internal control system is adequate considering the nature, size and complexity of its business.

G. Outlook

Datamatics is optimistic about the growth opportunities in the current fiscal year. The company will continue to focus on AI, training and upscaling key talent, a focus on the US and European market, hyperscaler technology platforms, and investments both in R&D and technology.

AI-first approach. Datamatics has been actively investing in AI as technology. At Datamatics, we have developed a Center of Excellence to help customers start and scale their AI journey.

Focus on hyperscalers. Datamatics will invest in building competencies in hyperscalers such as Microsoft, Salesforce, AWS, Snowflake, OutSystems, etc. Datamatics recently acquired Dextara Digital, a premier Salesforce partner, which aligns with this strategy and will help us to address the fast-growing Salesforce market.

Focus on the US, European markets. Datamatics will continue to focus on the US and Europe markets by leveraging its regional sales teams. The company sees a significant potential market in these two regions and plans to capitalize on the opportunities by expanding its presence and partnerships.

Datamatics will scale talent globally, invest in employees and accelerate innovation and digital capabilities to capitalize on the expanding market opportunities. The company sees enormous potential to engage and partner with customers to help them go 'deep in digital' to enable transformation.

Report on Corporate Governance

I. COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE

Corporate Governance is an integral part of Datamatics' philosophy. It's a reflection of the culture, values and policies of the Company. To meet its obligations towards its shareholders and other stakeholders, the Company has a corporate culture of conscience and consciousness; integrity, transparency and accountability for efficient and ethical conduct of business. It aims at highest standards of fairness, and accountability as well as equal treatment to all the stakeholders comprising of regulators, employees, investors, customers, vendors and the society at large.

Your Company's corporate governance framework incorporates a system of robust checks and balances between the prominent players; namely, the Board, its committees, the management, auditors and various other stakeholders. The Board of Directors and management of your Company place a greater emphasis on maintaining oversight and integrity in governing the Company and conducting business operations.

The Company firmly believes that corporate governance standards should go beyond the law and must satisfy the spirit of law and not just the letter of the law. This is a way of life at Datamatics and is driven relentlessly across the organization.

Your Company follows the requirements of Corporate Governance stipulated in the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI Listing Regulations') and the Companies Act, 2013 ('the Act').

o) Unpaid/Unclaimed Dividend and Transfer of Shares to IEPF:

Pursuant to Sections 124 and 125 of the Act read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("IEPF Rules"), dividend, if not claimed for a period of seven years from the date of transfer to Unpaid Dividend Account of the Company, are liable to be transferred to IEPF.

Further, all the shares in respect of which dividend has remained unclaimed for seven consecutive years or more from the date of transfer to unpaid dividend account shall

also be transferred to IEPF Authority. The said requirement does not apply to shares in respect of which there is a specific order of Court, Tribunal or Statutory Authority, restraining any transfer of the shares.

In the interest of the shareholders, the Company sends periodical reminders to the shareholders to claim their dividends in order to avoid transfer of dividends/shares to IEPF Authority. Notices in this regard are also published in the newspapers and the details of unclaimed dividends and shareholders whose shares are liable to be transferred to the IEPF Authority, are uploaded on the Company's website www.datamatics.com.

In light of the aforesaid provisions, the Company has during the year, transferred to IEPF the unclaimed dividends, outstanding for seven years, of the Company. Further, shares of the Company, in respect of which dividend has not been claimed for seven consecutive years or more from the date of transfer to unpaid dividend account, have also been transferred to the demat account of IEPF Authority.

The details of unclaimed dividends and shares transferred to IEPF during FY 2023-24 are as follows:

Financial Year	Amount of unclaimed dividend transferred (In ₹)	Number of shares transferred
2015-16 (Interim Dividend)	1,65,115	3,933
2015-16 (Final Dividend)	68,143	4,060

The Members who have a claim on above dividends and shares may claim the same from IEPF Authority by submitting an online application in web Form No. IEPF-5 available on the website www.iepf.gov.in and sending a physical copy of the same, duly signed to the Company, along with requisite documents enumerated in the web Form No. IEPF-5. No claims shall lie against the Company in respect of the dividend/shares so transferred.

Shareholders of the Company who have not received or encashed their dividend warrants for the financial years, as mentioned below, are requested to claim the unpaid/unclaimed dividend from the Company before its transfer to the above-mentioned Fund:

Year of Declaration	Date of Declaration	Interim/Final	Rate of Dividend (In ₹)	Date of Transfer to IEPF
2016-17	September 14, 2017	Final	0.75 per share	October 20, 2024
2017-18	March 21, 2018	Interim	0.50 per share	April 26, 2025
2017-18	August 14, 2018	Final	0.25 per share	September 19, 2025
2018-19	August 13, 2019	Final	1.00 per share	September 18, 2026
2021-22	August 13, 2021	Interim	2.50 per share	September 18, 2028
2021-22	July 29, 2022	Final	1.25 per share	September 03, 2029
2022-23	September 29, 2023	Special Dividend	1.25 per share	November 04, 2030
2022-23	September 29, 2023	Final Dividend	3.75 per share	November 04, 2030

In terms of the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016, as amended from time to time, all shares in respect of which dividend has not been claimed by shareholders for seven consecutive years were transferred to the Investor Education & Protection Fund Authority in accordance with the procedure prescribed under the said rules. At the end of the year, i.e., as at March 31, 2024, 86,294 equity shares were lying in the IEPF.

p) Updation of KYC details:

As per SEBI norms, efforts are underway to update Permanent Account Number (PAN) and bank account details of shareholder(s) in the members' register and communications have been sent by the Company to eligible shareholders in this regard. Shareholders are requested to update these details at the earliest.

q) Transfer of Shares in Demat form:

As per SEBI Notification No. SEBI/LAD-NRO/GN/2018/24 dated June 8, 2018 and further amendment vide Notification No. SEBI/LAD-NRO/GN/2018/49 dated November 30, 2018, requests for effecting transfer of securities (except in case of transmission or transposition of securities) cannot be processed from April 1, 2019 unless the securities are held in dematerialized form with the depositories. Independent Auditor's Report on the Audit of the Consolidated Financial Statements

To

The Members of **DATAMATICS GLOBAL SERVICES LIMITED**
Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of DATAMATICS GLOBAL SERVICES LIMITED ("Holding Company") and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), listed in Annexure A, which comprise the Consolidated Balance Sheet as at March 31, 2024, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information ("the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2024, their consolidated profit, their

consolidated other comprehensive income, their consolidated changes in equity and their consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI"), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter

A. Revenue recognition in respect of fixed price contract

The Group inter alia engages in fixed price contracts, wherein revenue is recognized using the percentage completion method based on the Group's estimate of contract cost. We identified revenue recognition of fixed price contracts as a Key Audit Matter since:

- accuracy and existence of revenues and onerous obligations, in respect of fixed price contracts, involves critical estimates.
- these estimates have high inherent uncertainty as it requires determination of the progress of the contract, costs incurred till date and future costs required to complete the remaining contract and performance obligations.
- estimate of costs is a critical estimate to determine the revenues and liability for a contract and these contracts may involve onerous obligations which require critical assessment of future costs.
- at the year-end, significant amount of unbilled revenue is recognized on the balance sheet date.

Auditor's Response

Our audit procedures included discussion with the management to obtain an understanding of the systems, processes and controls implemented by the Group for recording and computing the costs, revenue and other estimates associated with such contracts. Our audit approach was a combination of test of internal controls and substantive procedures which included the following:

- we evaluated the design of internal controls relating to recording of costs incurred and estimate of costs required to complete the performance obligations.
- we tested the access and application controls pertaining to time recording, allocation and budgeting systems which prevents unauthorised changes to recording of costs incurred.
- we selected a sample of contracts and tested the operating effectiveness of the internal controls relating to costs incurred and estimate of costs, through the inspection of performance of these controls.
- we selected a sample of contracts and performed a retrospective review of costs incurred with estimate of costs to identify significant variations and verify whether those variations have been considered in estimating the future costs required to complete the contract.
- we reviewed a sample of contracts with unbilled revenue to identify possible delays in achieving milestones, which

Key Audit Matter	Auditor's Response
<p>B. Carrying Value of Goodwill</p> <p>The Group has goodwill of Rs. 97.19 Crore in respect of some of its Cash Generating Units. The Group is required to annually test the amount of goodwill for impairment. This annual impairment testing was significant to our audit because the balance of Rs. 97.19 Crore as of March 31, 2024 is material to the financial statements.</p> <p>The determination of recoverable amount requires judgment on the part of the management with respect to future revenue, estimated profit, discount rate and hence the assessment process is highly subjective and is based on assumptions. Hence, We considered carrying value of goodwill as key audit matters.</p>	<p>require change in estimated costs to complete the remaining performance obligations.</p> <ul style="list-style-type: none"> we performed analytical procedures and test of details for reasonableness of incurred and estimated costs. <p>We evaluated the appropriateness of management's identification of Cash Generating Units and the continued satisfactory operation of the Holding Company's internal controls over the whole process. Our procedures included discussion with the management of the Holding Company on the suitability of the impairment model and reasonableness of the assumptions. Other Information

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Annual Report, but does not include the consolidated financial statements, the standalone financial statements and our respective Auditors' Report thereon. Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial

statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. Other information so far as it relates to the subsidiaries is traced from their financial statements audited by the other auditors. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Consolidated Financial Statements

The Holding Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of

the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act ("Ind AS"). The respective company's Management and Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each entity and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Management and Board of Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective management and Board of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective management either intends to liquidate or cease operations, or has no realistic alternative but to do so.

The respective management and Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i)

of the Act, we are also responsible for expressing our opinion on whether the Holding Company, its subsidiaries which are incorporated in India, have adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities and business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the business activities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the

adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- (a) We did not audit the financial statements / financial information of fifteen subsidiaries (including nine step-down subsidiaries), whose financial statements / financial information reflect, before consolidation adjustments, total assets of Rs. 945.61 Crore as at March 31, 2024, total revenues of Rs. 1,143.95 Crore, net profit after tax of Rs. 116.17 Crore, total comprehensive income of Rs. 120.41 Crore and net cash outflow of Rs. 21.15 Crore for the year ended on that date, as considered in the consolidated financial statements. These financial statements / financial information have been audited by other auditors whose reports have been furnished to us by the Holding Company's Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries are based solely on the reports of the other auditors.
- (b) We did not audit the financial statements / financial information of two step-down subsidiaries, whose financial statements / financial information reflect, before consolidation adjustments, total assets of Rs. 3.41 Crore as at March 31, 2024, total revenues of Rs. 4.84 Crore, net profit after tax of Rs. 0.22 Crore, total comprehensive income of Rs. 0.22 Crore and net cash inflows amounting to Rs. 0.35 Crore for the year ended on that date, as considered in the consolidated financial statements. These financial statements / financial information are unaudited and have been furnished to us by the Holding Company's Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and our report in terms of sub-sections (3) and (11) of Section 143 of the Act in so far as it relates to the aforesaid subsidiaries, is based solely on such unaudited financial statements / financial information. In our opinion and according to the information and explanations given to us by the Holding Company's Management, these unaudited financial statements / financial information are not material to the Group.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the unaudited financial statements / financial information certified by the Holding Company's Management.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements / information of subsidiaries, unaudited financial statements / financial information referred to in the paragraph on 'Other Matters' section above, we report, to the extent applicable, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.

- b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books, returns and the reports of the other auditors.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with rule 3 of Companies (Indian Accounting Standards) Rules, 2015.
- e) On the basis of the written representations received from the directors of the Holding Company as on 31st March, 2024 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of internal financial controls over financial reporting of the Group and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" which is based on the auditor's report of the company and its subsidiaries incorporated in India.
- g) With respect to the matter to be included in the Auditor's Report under section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Holding Company, subsidiary companies incorporated in India, wherever applicable, to its directors during the current year is in accordance with the provisions of section 197 of the Act. The remuneration paid to any director by the Holding Company, subsidiary companies incorporated in India, is not in excess of the limit laid down under section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under section 197(16) which are required to be commented upon by us.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014 as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on the financial statements / information of the subsidiaries, the financial statements / information certified by the management in the case of some subsidiaries, as noted in the paragraph on 'Other Matters':
 - i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group – Refer Note No. 45 to the consolidated financial statements;
 - ii. The Group did not have any material foreseeable losses on long-term contracts including derivatives contracts.

- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company, its subsidiary companies incorporated in India.
- iv. (a) The respective Managements of the Holding Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented that, to the best of their knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Group to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company or any such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) The respective Managements of the Holding Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented that, to the best of their knowledge and belief, no funds have been received by the Company or any such subsidiaries from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Group shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. As stated in Note No. 38(b) to the consolidated financial statements
- (a) The final dividend proposed in the previous year, declared, and paid by the holding company during the year is in accordance with Section 123 of the Act, as applicable.
- (b) The Board of Directors of the Holding Company have proposed a final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.
- vi. Based on our examination which included test checks and based on the reports of other auditors of the Subsidiaries, the Group wherever applicable, have used accounting software for maintaining its books of

account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except in case of two subsidiaries the feature of recording audit trail (edit log) facility was not enabled at the database level to log any direct data changes for the accounting software used for maintaining the Books of Accounts relating to payroll and invoice generation. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with.

As proviso to Rule 3(l) of the Companies (Accounts) Rules, 2014 is applicable from 1st April 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of Audit Trail as per the statutory requirements for record retention is not applicable for the financial year ended 31st March 2024.

2. With respect to the matters specified in paragraphs 3(xxii) and 4 of the Companies (Auditor's Report) Order, 2020 (the "Order" / "CARO") issued by the Central Government in terms of Section 143(11) of the Act, to be included in the Auditor's Report, according to the information and explanations given to us, and based on the CARO reports issued for the Holding Company and its subsidiaries included in the consolidated financial statements of the Holding Company, to which reporting under CARO is applicable, we report that there are no unfavorable remarks, qualifications or adverse remarks in these CARO reports except as mentioned below:

TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Referred to in paragraph 1(f) of the 'Report on Other Legal and Regulatory Requirements' section of the Independent Auditor's Report on the consolidated financial statements of the Holding Company for the year ended March 31, 2024.

Opinion

In conjunction with our audit of the consolidated financial statements of **DATAMATICS GLOBAL SERVICES LIMITED** ("the Holding Company") as of and for the year ended March 31, 2024, we have audited the internal financial controls over financial reporting of the Holding Company and its subsidiary companies, incorporated in India, wherever applicable, as of that date.

In our opinion to the best of our knowledge and according to the opinion expressed in the report of other auditors, the Holding Company, its subsidiary companies incorporated in India, wherever applicable, in all material respects, have an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the criteria for internal controls over financial reporting established by the respective companies, wherever applicable, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management's Responsibility for Internal Financial Controls

The respective company's Management and Board of Directors of the Holding Company, its subsidiary companies incorporated in India, wherever applicable, are responsible for establishing and maintaining internal financial controls based on the internal controls over financial reporting criteria established by the respective companies, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ("the Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of

internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the paragraph on 'Other Matters', is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Holding Company, its subsidiary companies incorporated in India, wherever applicable.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to the consolidated financial statements in so far as it relates to 8 (eight) subsidiary companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India and the information provided by the Holding Company's Management..

The financial statements of the Parent Group and its subsidiaries have been combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses after eliminating intra-Group balances / transactions and resulting unrealized profits in full. The amounts shown in respect of accumulated reserves comprises the amount of the relevant reserves as per the balance sheet of the Parent Group and its share in the post acquisition increase / decrease in the relevant reserves / accumulated deficit of its subsidiaries.

Non controlling interest in the net assets of consolidated subsidiaries consists of the amount of equity attributable to the non controlling shareholders at the dates on which investments are made by the Parent Group in the subsidiary companies and further movements in their share in the equity, subsequent to the dates of investments.

The Parent Group and its Indian subsidiaries maintain their records and prepare their financial statements under the Historical Cost Convention except certain financial assets and liabilities (including derivative instruments) which is measured at fair value or amortised cost, in accordance with generally accepted accounting principals in India while the foreign subsidiaries maintain their records and prepare their financial statements in conformity with GAAP prevalent in their respective countries of domicile.

Consolidated financial statements have been prepared using uniform accounting policies for like transactions and other events in similar circumstances except in case of charge of depreciation on fixed assets and other insignificant items for which the accounting treatment is given on the basis of local laws applicable in the respective country, for which using uniform accounting policies for the purpose of consolidation is impracticable.

Historical cost convention

The consolidated financial statements have been prepared on a historical cost basis, except for the following:

- * certain financial assets and liabilities (including

derivative instruments) which is measured at fair value or amortised cost;

- * defined benefit plans – plan assets measured at fair value.

Measurement of fair values

A number of Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Group has establish policies and procedure with respect to measurement of fair values. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, mutual funds and forward contracts that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration.

Use of Estimates

The preparation of consolidated financial statements in conformity with the generally accepted accounting principles require estimates and assumptions to be made that affect the reported amounts of the assets and liabilities on the date of financial statements and the reported amounts of revenues and

Notes forming part of the Consolidated Financial Statements (Contd.)

as at March 31, 2024

expenses during the reporting period. Differences between actual results and estimates are recognised in the year in which the results are known / materialized.

Foreign currency translation

Functional and presentation currency

The consolidated financial statements are presented in Indian rupee (INR), which is Group's functional and presentation currency

Transactions, balances and translation

Transactions in foreign currency are recorded at the rates of exchange prevailing at the date of the transactions.

Monetary items denominated in foreign currencies at the balance sheet date are translated at the exchange rate prevailing on the balance sheet date. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction. Any income or expense on account of exchange difference either on settlement or on translation at the balance sheet date is recognised in Statement of Profit and Loss in the year in which it arises.

The consolidated financial statements are reported in Indian rupees. The translation of the local currency of each foreign subsidiary within the Group into Indian rupees is performed in respect of assets and liabilities including fixed assets using the exchange rate in effect at the balance sheet date and for revenue and expense items, using a monthly simple average exchange rate for the period. Net exchange difference resulting from the above translation of financial statements of foreign subsidiaries is recognised in Foreign Exchange Fluctuation Reserve. Exchange Difference arising on investment in subsidiaries is recognised in Foreign Exchange Fluctuation Reserve.

Revenue recognition

Revenue from services is recognised based on time and material and billed to the clients as per the terms of the contract.

Revenue related to fixed price maintenance and support services contracts where the Group is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.

In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract cost incurred determining the degrees of completion of the performance obligation.

Revenue from the sale of distinct internally developed software and third party software is recognised upfront at the point in time when the software is delivered to the customer. In cases where implementation services rendered significantly modifies or customise the software, these services and software are accounted for as a single performance obligation and revenue is recognised over time on a POC method.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer.

Cost and earnings in excess of billings are classified as unbilled revenue while billings in excess of cost and earnings are classified as unearned revenue. Discount is recognised on cash basis in accordance with the contractual term of the agreement with the customers.

Income tax

Tax expense comprise of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act.

Current income taxes

The current tax expense include income tax expense payable by the Group. The current tax payable by the Group is income tax payable on worldwide income.

Current income taxes payable by overseas subsidiaries is computed in accordance with tax laws applicable in the jurisdiction in which the respective subsidiaries operates.

Advance taxes and provision for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in some tax jurisdictions.

Deferred tax

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

At each balance sheet date unrecognized deferred tax assets are re-assessed. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Minimum Alternate Tax (MAT) credit is recognized as an asset only when and to the extent there is convincing evidence that normal income tax will be paid during the specified period. In the year in which the MAT credit becomes eligible to be recognized as an asset in accordance with the Guidance Note on Accounting for credit available in respect of Minimum Alternate Tax under the Income Tax Act, 1961.

Leases

Finance Lease

Assets taken on lease by the Group in its capacity as lessee, where the Group has substantially all the risks and rewards of ownership are classified as finance lease. Such leases are capitalised at the inception of the lease at lower of the fair

Notes forming part of the Consolidated Financial Statements (Contd.)

as at March 31, 2024

value or the present value of the minimum lease payments and a liability is recognised for an equivalent amount. Each lease rental paid is allocated between the liability and the interest cost as to obtain a constant periodic rate of interest on the outstanding liability for each year.

Operating lease

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognised as operating lease. Operating lease payments are recognised on a straight line basis over the lease term in statement of profit and loss, unless the lease agreement explicitly states that increase is on account of inflation.

Cash and cash equivalents

The Group considers all highly liquid financial instruments, which are readily convertible into cash and have original maturities of three months or less from date of purchase to be cash equivalents.

Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Group are segregated.

Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

Investments and other financial assets

Classification

The Group classifies its financial assets in the following measurement categories:

- * those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- * those measured at amortised cost.

The classification depends on the Group's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Group reclassifies debt investments when and only when its business model for managing those assets

changes.

Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

* Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

* Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.

* Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Group subsequently measures all equity investments, at fair value (except investment in joint venture which is valued at cost less impairment losses, if any). Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the Group's right to receive payments is

Notes forming part of the Consolidated Financial Statements (Contd.)

as at March 31, 2024

established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/(losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 37 details how the Group determines whether there has been a significant increase in credit risk.

For trade receivables only, the Group applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

Derecognition of financial assets

A financial asset is derecognised only when

* The Group has transferred the rights to receive cash flows from the financial asset or

* retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Group has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

Income recognition

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Dividends are recognised in profit or loss only when the right to

receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Group, and the amount of the dividend can be measured reliably.

Derivatives and hedging activities

The Group uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments and forecasted transactions. Such forward contracts are utilised against the inflow of funds under firm commitments. The Group does not use the forward contract for speculative purposes. The Group designates these hedging instruments as cash flow hedge. The use of hedging instruments is governed by the Group's policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Group's risk management strategy.

Hedging instruments are initially measured at fair value and are remeasured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised through other comprehensive income and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognised in the Statement of Profit and Loss as they arise.

The fair value of derivative financial instruments is determined based on observable market inputs including currency spot and forward rates, yield curves, currency volatility etc.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or exercised or no longer qualifies for hedge accounting. At that time for forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in other comprehensive income is retained until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in other comprehensive income is transferred to the Statement of Profit and Loss for the year.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

Property, Plant and Equipment

Property, Plant and Equipments are valued at cost, except for certain Property, Plant and Equipments which have been stated at revalued amounts as determined by approved independent valuer, after reducing accumulated depreciation until the date of the balance sheet. Direct costs are capitalised

Notes forming part of the Consolidated Financial Statements (Contd.)

as at March 31, 2024

until the assets are ready to use and include financing costs relating to any specific borrowing attributable to the acquisition of fixed assets. Capital work-in-progress includes assets not put to use before the year end.

Depreciation methods, estimated useful lives and residual value

"Depreciation on property, plant and equipment is provided on the Straight Line Method except for leasehold land, leasehold premises and freehold land as per the useful life and in the manner prescribed in Schedule II to Companies Act, 2013. Leasehold Premises is amortized on the Straight Line Method over the period of 30 years and Leasehold Land is amortized on the Straight Line Method over the period of 75 years."

Intangible assets

Goodwill

Goodwill on merger of subsidiaries is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or Groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or Groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, which in our case are the operating segments.

Goodwill on consolidation of subsidiaries is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

Trademarks, copyrights and other rights

Separately acquired Trademarks and copyrights are shown at historical cost. Trademarks, copyrights and non-compete fees acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

Computer software

The intangible assets are recorded at cost and are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

Other Intangible assets

Other intangible assets that do not meet the criteria in (i) to (iii) above are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

Amortisation methods and periods

The Group amortises intangible assets with a finite useful life using the straight-line method as following :

Particulars	Useful Life
Patents, Trademarks, Copyrights	3 - 5 years
Customer contracts	3 years
Computer Software	3 years
Other intangible assets	3 years

Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least

Notes forming part of the Consolidated Financial Statements (Contd.)

as at March 31, 2024

12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

Borrowing costs

Borrowing costs, which are directly attributable to the acquisition, construction or production of a qualifying assets are capitalised as a part of the cost of the assets. Other borrowing costs are recognised as expenses in the year in which they are incurred.

Provision, Contingent Liabilities and Contingent Assets

The Group recognises a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for contingent liability is made when there is possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect current best estimates.

Contingent Assets are neither recognised nor disclosed.

Employee benefits

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

In case of Parent Group and its Indian Subsidiaries; (i) Defined Contribution Plan - Contribution to defined contribution plans are recognised as expense in the Statement of Profit and Loss, as they are incurred. (ii) Defined Benefit Plan - Companies' liability towards gratuity and leave encashment are determined using the projected unit credit method as at Balance Sheet date. Actuarial gains / losses are recognised immediately in the Statement of Profit and Loss. Long term compensated absences are provided for based on actuarial valuation.

Foreign subsidiaries maintain a defined contribution retirement plan, which covers substantially all the employees of the foreign subsidiaries and qualifies as a deferred salary arrangement under laws of respective countries. The Group matches employees' contributions at the discretion of the Group.

Restricted Stock Units (RSU): Employee Compensation in the form of stock options, granted under LDL RSU Plan 2016 & LDL Phantom Stock Appreciation Plan have been charged to Profit & Loss Statement, based on fair value method, over the vesting period.

Performance Based Employee Stock Option Plan (PSOP): The Holding Company recognizes compensation expenses relating to share-based payments in net profit based on estimated fair value of the awards on the grant date. The estimated fair value of awards is recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in substance. The entitlement of award which depends on the various parameters will be reviewed on annual basis.

Contributed equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Earnings per share

In determining Earnings per Share, the Group considers the net profit attributable to Group's owners. The number of shares used in computing basic Earnings per Share is the weighted average number of shares outstanding during the period. The number of shares used in computing diluted Earnings per Share comprises the weighted average shares considered for deriving basic Earnings per Share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares.

Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

Notes forming part of the Consolidated Financial Statements (Contd.)

as at March 31, 2024

Nature of reserves

(i) Securities Premium

Securities premium is used to record the premium on issue of shares. The reserve is utilised in accordance with the provision of the Companies Act, 2013.

(ii) ESOP/PSOP Reserve

ESOP reserve is created for issue of share capital under RSU plan. PSOP reserve is created for issue of share capital under Performance Based Employee Stock Option Plan ('PSOP') 2022.

(iii) General Reserve

The General reserve is used from time to time to transfer profits from retained earnings for appropriation purposes. As the General reserve is created by a transfer from one component of equity to another and is not item of other comprehensive income, items included in the General reserve will not be reclassified subsequently to statement of profit and loss.

(iv) Capital Reserve

Capital reserve created on the merger of one of the subsidiaries with the company. Also Goodwill on common control transaction is adjusted against capital reserve.

(v) Capital Redemption Reserve

As per Companies Act, 2013, capital redemption reserve is created when company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve.

(vi) OCI - Equity investments

The company recognises unrealised and realised gain on equity shares in FVOCI - Equity investments.

(vii) OCI - Cash Flow Hedging Reserve

The cash flow hedging reserve represents the cumulative effective portion of gains or losses arising on changes in fair value of designated portion of hedging instruments entered into for cash flow hedges. The cumulative gain or loss arising on changes in fair value of the designated portion of the hedging instruments that are recognised and accumulated under the heading of cash flow hedging reserve. Such gains or losses will be reclassified to statement of profit and loss in the period in which the hedged transaction occurs.

(viii) OCI - Foreign currency translation reserve

The exchange differences arising from the translation of financial statements of foreign operations with functional currency other than Indian rupees is recognised in other comprehensive income, net of taxes and is presented within equity in the foreign currency translation reserve.

i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the consolidated financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Group has classified its financial instruments into the three levels prescribed under the accounting standard.

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, mutual funds and forward contracts that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration.

There are no transfers between levels 1, 2 and 3 during the year.

ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- * the use of quoted market prices or dealer quotes for similar instruments

All of the resulting fair value estimates are included in level 3 except for unlisted equity securities, contingent consideration and indemnification asset, where the fair values have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk.

iii) Valuation processes

The carrying amounts of trade receivables, trade payables, capital creditors and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

Note 37: Financial risk management

The Group's activities expose it to market risk, liquidity risk and credit risk. In order to minimise any adverse effects on the financial performance of the Group, derivative financial instruments, such as foreign exchange forward contracts are entered to hedge certain foreign currency risk exposures. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

This note explains the sources of risk which the Group is exposed to and how the Group manages the risk and the impact of hedge accounting in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables and financial assets	Aging analysis, Credit ratings	Diversification of bank deposits, credit limits and letters of credit
Liquidity risk	Borrowings and Trade payable	Maturity analysis, cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk – foreign exchange	Import Payables and Export Receivables	Cash flow forecasting Sensitivity analysis	Forward foreign exchange contracts
Market risk – security prices	Investments in equity securities	Sensitivity analysis	Portfolio diversification

Notes forming part of the Consolidated Financial Statements (Contd.)

as at March 31, 2024

The Board provides guiding principles for overall risk management, as well as policies covering specific areas such as credit risk, liquidity risk, and Foreign Exchange Risk effecting business operations. The company's risk management is carried out by the management as per guidelines and policies approved by the Board of Directors.

A) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses the direct risk of default, risk of deterioration of creditworthiness as well as concentration risks. The Group is exposed to credit risk from its operating activities (primarily trade receivables), deposits with banks and loans given.

Credit risk management

The Group's credit risk mainly from trade receivables as these are typically unsecured. This credit risk has always been managed through credit approvals, establishing credit limits and continuous monitoring the creditworthiness of customers to whom credit is extended in the normal course of business. The Group estimates the expected credit loss based on past data, available information on public domain and experience. Expected credit losses of financial assets receivable are estimated based on historical data of the Group. The Group has provisioning policy for expected credit losses. There is no credit risk in bank deposits which are demand deposits. The credit risk is minimum in case of entity / person to whom loan has been given.

The maximum exposure to credit risk as at March 31, 2024 and March 31, 2023 is the carrying value of such trade receivables as shown in note 11 of the financials.

Reconciliation of loss allowance provision – Trade receivables

Particulars	(₹ in Crores)
Loss allowance on 31 March 2022	15.80
Changes in loss allowance	(2.68)
Bad debts write off	(0.56)
Loss allowance on 31 March 2023	12.56
Changes in loss allowance	(1.52)
Bad debts write off	(0.19)
Loss allowance on 31 March 2024	10.85

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Group treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows. In addition, the Group's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

C) Market risk

i) Foreign currency risk

The Group operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, EUR and GBP. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the Group's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows. The objective of the hedges is to minimise the volatility of the INR cash flows of highly probable forecast transactions.

The Group's risk management policy is to hedge around 70% to 85% of forecasted revenue for the subsequent 24 months. As per the risk management policy, foreign exchange forward contracts are taken to hedge around 70% to 85% of the forecasted revenue.

a) Foreign currency risk exposure:

Details of foreign currency exposures not covered by derivative instruments as at March 31, 2024 and March 31, 2023 are given below:

GBP	0.45	0.62
EUR	0.22	0.30
CHF	0.04	0.08
AUD	0.14	0.02

* Holding all other variables constant

ii) Cash flow and fair value interest rate risk

The Group's main interest rate risk arises from long-term borrowings with variable rates, which expose the Group to cash flow interest rate risk. Group policy is to maintain most of its borrowings at fixed rate using interest rate swaps to achieve this when necessary. During March 31, 2024 and March 31, 2023, the Group's borrowings at variable rate were mainly denominated in INR and USD.

iii) Price risk

a) Exposure

The group's exposure to equity securities price risk arises from investments held by the group and classified in the balance sheet either as fair value through OCI or at fair value through profit or loss.

To manage its price risk arising from investments in equity securities, the group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the group.

The majority of the group's equity investments are publicly traded.

as at March 31, 2024

Note 38: Capital management

a) Risk management

For the purpose of the Group's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders. The primary objective of the Group capital management is to maximise the shareholder value.

b) Dividends

(₹ in Crores)

Particulars	March 31, 2024	March 31, 2023

In addition to the above dividends, since year end the directors have recommended the payment of a final dividend of Rs. 5.00 per fully paid equity share (March 31, 2023 Rs. 5.00). This proposed dividend is subject to the approval of shareholders in the ensuing annual general meeting.	29.50	29.47

Note 39: Segment information

Description of segments and principal activities

"Operating segments are components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance. The Group's chief operating decision maker is Vice Chairman and CEO.

The Group organised itself into three business segments, which forms the operating segments for segment reporting.

The operating segments identified are as under:

Note 43: Leases – Operating leases

The Group's significant leasing arrangements are mainly in respect of residential and office premises. The aggregate lease rentals payable on these leasing arrangements are charged as rent under "Other expenses" in Note 35. These leasing arrangements are for a period not exceeding five years and are in most cases renewable by mutual consent, on mutually agreeable terms.

Rental expense relating to operating leases

Particulars	(₹ in Crores)	
	March 31, 2024	March 31, 2023
Total rental expense relating to operating leases	14.88	9.15

The group has applied the practical expedient in for accounting of short-term leases, i.e., it has recognised lease payments as expense as per Para 6 of Ind AS 116 instead of recognising the lease transaction as right of use asset with corresponding lease liability as required under Para 22 of Ind AS 116.

Note 46: Forward contracts in foreign currencies

The Group in accordance with its risk management policies and procedures, enters into foreign currency forward contracts to manage its exposure in foreign exchange rates. The counter party is generally a bank. The foreign exchange forward contracts mature within a period of one month and two years.

The Group uses forward exchange contracts to hedge its exposure in foreign currency on highly probable forecast transactions. The information on derivative instruments is given below. The table below analyzes the derivative financial instruments into relevant maturity groupings based on the remaining period as of the balance sheet date:

Note 47: Revenue from contract with major customers

No single customer represents 10% or more of the Group's total revenue during the year ended March 31, 2024 and March 31, 2023.

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied (or partially satisfied) performance obligations, along with the broad time band for the expected time to recognise those revenues, the Group has applied the practical expedient in Ind AS 115. Accordingly, the Group has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognise corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts. Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of estimates, economic factors (changes in currency rates, tax laws etc).

Changes in contract assets of major customers are as follows:

Note 48: Employee benefits

The disclosure as required by Ind AS 19 on "Employee Benefits" are given below:

The present value of gratuity obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation. The obligation of leave benefits (unfunded) is also recognised using the projected unit credit method.

iii. **Leave Encashment:** The Group has a policy on compensated absences which is accumulating in nature, wherever applicable. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each Balance Sheet date. This is done using projected unit credit method on the additional amount expected to be paid / availed as a result of the unused entitlement that has accumulated at the Balance Sheet date. Expenses relating to the same are recognised in the statement of profit and loss.

INDEPENDENT AUDITOR'S REPORT

To

The Members of **DATAMATICS GLOBAL SERVICES LIMITED**
Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of **DATAMATICS GLOBAL SERVICES LIMITED** ("the Company"), which comprise of the Standalone Balance Sheet as at March 31, 2024, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows for the year ended on that date, and notes to the standalone financial statements including a summary of the material accounting policies and other explanatory information ("the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, the profit, other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Standalone Financial Statements" section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter

A. Revenue recognition in respect of fixed price contract

The Company inter alia engages in fixed price contracts, wherein revenue is recognized using the percentage completion method based on the Company's estimate of contract cost. We identified revenue recognition of fixed price contracts as a Key Audit Matter since:

- accuracy and existence of revenues and onerous obligations, in respect of fixed price contracts, involves critical estimates.
- these estimates have high inherent uncertainty as it requires determination of the progress of the contract, costs incurred till date and future costs required to complete the remaining contract and performance obligations.
- estimate of costs is a critical estimate to determine the revenues and liability for a contract and these contracts may involve onerous obligations which require critical assessment of future costs.
- at the year-end, significant amount of unbilled revenue is recognized on the balance sheet date.

Auditor's Response

Our audit procedures included discussion with the management to obtain an understanding of the systems, processes and controls implemented by the Company for recording and computing the costs, revenue and other estimates associated with such contracts. Our audit approach was a combination of test of internal controls and substantive procedures which included the following:

- we evaluated the design of internal controls relating to recording of costs incurred and estimate of costs required to complete the performance obligations.
- we tested the access and application controls pertaining to time recording, allocation and budgeting systems which prevents unauthorised changes to recording of costs incurred.
- we selected a sample of contracts and tested the operating effectiveness of the internal controls relating to costs incurred and estimate of costs, through the inspection of performance of these controls.
- we selected a sample of contracts and performed a retrospective review of costs incurred with estimate of costs to identify significant variations and verify whether those variations have been considered in estimating the future costs required to complete the contract.
- we reviewed a sample of contracts with unbilled revenue to identify possible delays in achieving milestones, which

Key Audit Matter	Auditor's Response
<p>B. Transactions with Related Parties</p> <p>The company has material related party transactions during the year. Related party transactions impose limitations on the auditor's ability to obtain audit evidence that all other aspects of related party transactions (other than price) are equivalent to those of a similar arm's length transaction.</p> <p>Further the nature and complexity of such transactions and the involvement of management with respect to the roles and responsibilities of the entities involved in the transactions, makes it subjective. We identified transactions with related parties as key audit matter.</p>	<p>require change in estimated costs to complete the remaining performance obligations.</p> <ul style="list-style-type: none"> we performed analytical procedures and test of details for reasonableness of incurred and estimated costs. <p>Our audit procedures on transactions with related parties included the following:</p> <ul style="list-style-type: none"> we obtained a comfort letter issued by an independent professional who is in charge of Transfer Pricing matters of the Company which states that the transactions are conducted at arm's length price. we also reviewed the income tax assessments of earlier years to corroborate whether the methodology adopted by the Company has been accepted by the income tax authorities in previous years. we also compared the pricing model and other terms of the current agreements with agreements of the previous years.

Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Annual Report, but does not include the consolidated financial statements, the standalone financial statements and our respective Auditors' Report thereon. Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including Accounting Standards specified under Section 133 of the Act ("Ind AS"). This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making

judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Management and Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(l) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a

matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

Attention is invited to Note No. 5 of the Financial Statement for the year ended March 31, 2024 which states that the Company has investments in Preference Shares amounting to Rs 9.83 crore and investment in perpetual debentures amounting to Rs 36.14 crore in its step-down subsidiary as on March 31, 2024. The said subsidiary has a negative net worth of Rs. 43.77 crore as on March 31, 2024. As per the Management, the said step-down subsidiary is engaged in RPA business & is at growth stage and has started generating profit and keeping in mind the business prospect, Management is confident of turning around this step-down subsidiary in the near future and hence, no provision for investments has been considered necessary by the Management.

Our opinion is not modified in respect of the above matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Companies Act, 2013, we give in the "Annexure A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:

 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid standalone financial statements have been kept by the Company so far as it appears from our examination of those books.
 - c) The Standalone Balance Sheet, the Standalone Statement of Profit and Loss including Other Comprehensive Income, Standalone Statement of Changes in Equity and the Standalone Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act read with rule 3 of Companies (Indian Accounting Standards) Rules, 2015.
 - e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, please refer to our separate report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and

operating effectiveness of the Company's internal financial controls over financial reporting.

- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under section 197(16) which are required to be commented upon by us.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 as amended, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note No. 43 to the standalone financial statements.

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There has been no delay in transferring amounts, required to be transferred to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The Management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or

indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- v. As stated in Note 38(b) to the financial statements

a) The final dividend proposed in the previous year, declared and paid by the Company during the year, is in accordance with Section 123 of the Act, as applicable.

b) The Board of Directors of the Company have proposed a final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.

vi. Based on our examination which included test checks, the company have used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with.

As proviso to Rule 3(l) of the Companies (Accounts) Rules, 2014 is applicable from 1st April 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of Audit Trail as per the statutory requirements for record retention is not applicable for the financial year ended 31st March 2024.

TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Referred to in paragraph 2(f) of 'Report on Other Legal and Regulatory Requirements' section of the Independent Auditor's Report on the standalone financial statements of the company for the year ended March 31, 2024.

Opinion

We have audited the internal financial controls over financial reporting of DATAMATICS GLOBAL SERVICES LIMITED ("the Company") as of March 31, 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, to the best of our knowledge and according to the information and explanations provided to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management's Responsibility for Internal Financial Controls

The Company's management and Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over

financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Note 2: Material Accounting Policies

a) Basis of Preparation of Financial Statements:

i) Compliance with Ind AS

The financial statements comply in all material aspects with Indian Accounting Standards (IndAS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

The financial statements were approved by the Company's Board of Directors and authorised for issue on May 08, 2024.

ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) which is measured at fair value;
- defined benefit plans – plan assets measured at fair value

iii) Measurement of fair values

A number of Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has established policies and procedure with respect to measurement of fair values. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity

instruments, mutual funds and forward contracts that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration.

b) Use of Estimates

The preparation of financial statements in conformity with the generally accepted accounting principles require estimates and assumptions to be made that affect the reported amounts of the assets and liabilities on the date of financial statements and the reported amounts of revenues and expenses during the reporting period. Differences between actual results and estimates are recognised in the year in which the results are known / materialized.

c) Foreign currency translation

i) Functional and presentation currency

The financial statements are presented in Indian rupee (INR), which is Company's functional and presentation currency.

ii) Transactions and balances

Transactions in foreign currency are recorded at the rates of exchange prevailing at the date of the transactions.

Monetary items denominated in foreign currencies at the balance sheet date are translated at the exchange rates prevailing at the balance sheet date. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction.

Any income or expense on account of exchange difference either on settlement or on translation at the balance sheet date is recognised in the Statement of Profit and Loss in the year in which it arises.

d) Revenue recognition

Revenue from services is recognised based on time and material and billed to the clients as per the terms of the contract.

Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance.

In respect of other fixed-price contracts, revenue is recognised using percentage-of-completion method ('POC method') of accounting with contract cost incurred

Notes forming part of the Standalone Financial Statements (Contd.)

as at March 31, 2024

determining the degrees of completion of the performance obligation.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer.

Revenue from subsidiaries is recognised based on transaction price of services which is at arm's length.

Cost and earnings in excess of billings are classified as unbilled revenue while billings in excess of cost and earnings are classified as unearned revenue. Discount is recognised on cash basis in accordance with the contractual term of the agreement with the customers.

e) Income tax

Tax expense comprise of current and deferred tax. Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Indian Income Tax Act.

Current income taxes

The current tax expense include income tax expense payable by the company in India. Advance taxes and provision for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in same tax jurisdictions.

Deferred tax

Deferred income taxes reflects the impact of current year timing differences between taxable income and accounting income for the year and reversal of timing differences of earlier years. Deferred tax is measured based on the tax rates and the tax laws enacted at the balance sheet date. Deferred tax assets are recognized only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

At each balance sheet date unrecognized deferred tax assets are re-assessed. It recognizes unrecognized deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be that sufficient future taxable income will be available against which such deferred tax assets can be realized.

f) Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to

terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

g) Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into cash and have original maturities of three months or less from date of purchase to be cash equivalents.

h) Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

i) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

j) Investments and other financial assets

i) Classification

The company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The company reclassifies debt investments when and only when its business model for managing those assets changes.

ii) Measurement

At initial recognition, the company measures a financial asset at its fair value plus, in the case of a financial asset not

Notes forming part of the Standalone Financial Statements (Contd.)

as at March 31, 2024

at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the company classifies its debt instruments:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.
- **Impairment of investment in subsidiary:** The Company reviews its carrying value of investments carried at amortised cost annually, or more frequently, when there is indication for impairment. If the recoverable amount is less than carrying amount, the impairment loss is accounted for.
- **Fair value through other comprehensive income (FVOCI):** Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.
- **Fair value through profit or loss:** Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The company subsequently measures all equity investments at fair value (except investment in subsidiaries and joint venture which are at amortised cost). Where the company's

management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other gain/(losses) in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

iii) Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 38 details how the company determines whether there has been a significant increase in credit risk.

For trade receivables only, the company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

iv) Derecognition of financial assets

A financial asset is derecognised only when

- The company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the company has not retained control of the financial asset. Where the company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

v) Income recognition

Interest income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the

Notes forming part of the Standalone Financial Statements (Contd.)

as at March 31, 2024

contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the company, and the amount of the dividend can be measured reliably.

k) Derivatives and hedging activities

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments and forecasted transactions. Such forward contracts are utilised against the inflow of funds under firm commitments. The Company does not use the forward contract for speculative purposes. The Company designates these hedging instruments as cash flow hedge. The use of hedging instruments is governed by the Company's policies approved by the Board of Directors, which provide written principles on the use of such financial derivatives consistent with the Company's risk management strategy.

Hedging instruments are initially measured at fair value and are remeasured at subsequent reporting dates. Changes in the fair value of these derivatives that are designated and effective as hedges of future cash flows are recognised in other comprehensive income and the ineffective portion is recognised immediately in the Statement of Profit and Loss.

Changes in the fair value of derivative financial instruments that do not qualify for hedge accounting are recognised in the Statement of Profit and Loss as they arise.

The fair value of derivative financial instruments is determined based on observable market inputs including currency spot and forward rates, yield curves, currency volatility etc.

Hedge accounting is discontinued when the hedging instrument expires or is sold, terminated or exercised or no longer qualifies for hedge accounting. At that time for forecasted transactions, any cumulative gain or loss on the hedging instrument recognised in Other comprehensive income is retained until the forecasted transaction occurs. If a hedged transaction is no longer expected to occur, the net cumulative gain or loss recognised in other comprehensive income is transferred to the Statement of Profit and Loss for the year.

l) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the company or the counterparty.

m) Property, Plant and Equipment

Property, Plant and Equipment are valued at cost, except for

certain Property, Plant and Equipment which have been stated at revalued amounts as determined by approved independent valuer, after reducing accumulated depreciation until the date of the balance sheet. Direct costs are capitalised until the assets are ready to use and include financing costs relating to any specific borrowing attributable to the acquisition of fixed assets. Capital work-in-progress includes assets not put to use before the year end.

Depreciation methods, estimated useful lives and residual value

Depreciation on property, plant and equipment is provided on the Straight Line Method except for leasehold land, leasehold premises and freehold land as per the useful life and in the manner prescribed in Schedule II to Companies Act, 2013. Leasehold Premises is amortized on the Straight Line Method over the period of 30 years and Leasehold Land is amortized on the Straight Line Method over the period of 75 years.

n) Intangible assets

i) Goodwill

Goodwill on merger of subsidiaries is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, which in our case are the operating segments.

ii) Trademarks, copyrights and other rights

Separately acquired Trademarks and copyrights are shown at historical cost. Trademarks, copyrights and non-compete acquired in a business combination are recognised at fair value at the acquisition date. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

iii) Computer software

The intangible assets are recorded at cost and are carried at cost less accumulated amortization and accumulated impairment losses, if any.

Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads.

Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

iv) Other intangible assets

Other intangible assets that do not meet the criteria in (i) to (iii) above are recognised as an expense as incurred.

Notes forming part of the Standalone Financial Statements (Contd.)

as at March 31, 2024

Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

v) Amortisation methods and periods

The company amortises intangible assets with a finite useful life using the straight-line method as following :

Particulars	Useful Life
Computer Software	3 years
Non-Compete Fees	5 years
Copy Rights	3 years
Trade Mark	3 years
Other Intangible assets	3 years

o) Trade and other payables

These amounts represent liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. The amounts are unsecured. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

p) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the

company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

q) Borrowing costs

Borrowing costs, which are directly attributable to the acquisition, construction or production of a qualifying assets are capitalised as a part of the cost of the assets. Other borrowing costs are recognised as expenses in the year in which they are incurred.

r) Provision, Contingent Liabilities and Contingent Assets

The Company recognises a provision when there is a present obligation as a result of a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for contingent liability is made when there is possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.

Provisions are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect current best estimates.

Contingent assets are neither recognised nor disclosed.

s) Employee benefits

i) Defined Contribution Plan

Contribution to defined contribution plans are recognised as expense in the Statement of Profit and Loss, as they are incurred.

ii) Defined Benefit Plan

Company's liabilities towards gratuity and leave encashment are determined using the projected unit credit method with actuarial valuation being carried out as at Balance Sheet date. Actuarial gains / losses are recognised immediately in the Statement of Profit and Loss. Long-term compensated absences are provided for based on actuarial valuation.

iii) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12

Notes forming part of the Standalone Financial Statements (Contd.)

as at March 31, 2024

months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

iv) Performance Based Employee Stock Option Plan

The Company recognizes compensation expenses relating to share-based payments in net profit based on estimated fair value of the awards on the grant date. The estimated fair value of awards is recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was in substance. The entitlement of award which depends on the various parameters will be reviewed on annual basis.

t) Contributed equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new

shares or options are shown in equity as a deduction, net of tax, from the proceeds.

u) Earnings per share

In determining Earnings per Share, the Company considers the net profit attributable to company's owners. The number of shares used in computing basic Earnings per Share is the weighted average number of shares outstanding during the period. The number of shares used in computing diluted Earnings per Share comprises the weighted average shares considered for deriving basic Earnings per Share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares.

v) Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

i) Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

Financial Liabilities				
Fair Value of Outstanding Forward Contracts	1.53	-	-	1.53
Total financial liabilities	1.53	-	-	1.53

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, mutual funds and forward contracts that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities, contingent consideration.

There are no transfers between levels 1 and 2 during the year.

Notes forming part of the Standalone Financial Statements (Contd.)

as at March 31, 2024

Reconciliation of Level 3 fair value measurement is as follows:

(₹ in Crores)

Particulars	Amount
Balance as on March 31, 2022	12.08
Change in the value	0.99
Balance as on March 31, 2023	13.07
Change in the value	(3.24)
Balance as on March 31, 2024	9.83

ii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

* the use of quoted market prices or dealer quotes for similar instruments

All of the resulting fair value estimates are included in level 3 except for unlisted equity securities, contingent consideration and indemnification asset, where the fair values have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk.

iii) Valuation processes

The carrying amounts of trade receivables, trade payables, capital creditors and cash and cash equivalents are considered to be the same as their fair values, due to their short-term nature.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

Note 37: Financial risk management

The company's activities expose it to market risk, liquidity risk and credit risk. In order to minimise any adverse effects on the financial performance of the company, derivative financial instruments, such as foreign exchange forward contracts are entered to hedge certain foreign currency risk exposures. Derivatives are used exclusively for hedging purposes and not as trading or speculative instruments.

This note explains the sources of risk which the entity is exposed to and how the entity manages the risk and the impact of hedge accounting in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables and financial assets	Aging analysis Credit ratings	Diversification of bank deposits, credit limits and letters of credit
Liquidity risk	Borrowings and Trade payable	Maturity analysis, cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk – foreign exchange	Import Payables and Receivables on Indenting services	Cash flow forecasting Sensitivity analysis	Forward foreign exchange contracts
Market risk – security prices	Investments in equity securities	Sensitivity analysis	Portfolio diversification

The Board provides guiding principles for overall risk management, as well as policies covering specific areas such as credit risk, liquidity risk, and Foreign Exchange Risk effecting business operations. The company's risk management is carried out by the management as per guidelines and policies approved by the Board of Directors.

A) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses the direct risk of default, risk of deterioration of creditworthiness as well as concentration risks. The Company is exposed to credit risk from its operating activities (primarily trade receivables), deposits with banks and loans given.

Credit risk management

The company's credit risk mainly from trade receivables as these are typically unsecured. This credit risk has always been managed through credit approvals, establishing credit limits and continuous monitoring the creditworthiness of customers to whom credit is extended in the normal course of business. The Company estimates the expected credit loss based on past data, available information on public domain and experience. Expected credit losses of financial assets receivable are estimated

Notes forming part of the Standalone Financial Statements (Contd.)

as at March 31, 2024

based on historical data of the Company. The company has provisioning policy for expected credit losses. There is no credit risk in bank deposits which are demand deposits. The credit risk is minimum in case of entity / person to whom loan has been given.

The maximum exposure to credit risk as at March 31, 2024 and March 31, 2023 is the carrying value of such trade receivables as shown in note 11 of the financials.

Reconciliation of loss allowance provision – Trade receivables

B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the company's liquidity position and cash and cash equivalents on the basis of expected cash flows. In addition, the company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

C) Market risk

i) Foreign currency risk

The company operates internationally and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, EUR and GBP. Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows. The objective of the hedges is to minimise the volatility of the INR cash flows of highly probable forecast transactions.

The company's risk management policy is to hedge around 50% to 70% of forecasted receivables for the subsequent 18 months. As per the risk management policy, foreign exchange forward contracts are taken to hedge round 50% to 70% of the forecasted receivables.

a) Foreign currency risk exposure:

Details of foreign currency exposures not covered by derivative instruments as at March 31, 2024 and March 31, 2023 are given below :

EUR	0.15	0.19
CHF	0.06	0.06
AUD	0.09	0.13

* Holding all other variables constant

ii) Cash flow and fair value interest rate risk

The company's main interest rate risk arises from long-term borrowings with variable rates, which expose the company to cash flow interest rate risk. company policy is to maintain most of its borrowings at fixed rate using interest rate swaps to achieve this when necessary.

The company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

iii) Price risk

a) Exposure

The company's exposure to equity securities price risk arises from investments held by the company and classified in the balance sheet either as fair value through OCI or at fair value through profit or loss.

To manage its price risk arising from investments in equity securities, the company diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the company.

All of the company's equity investments are publicly traded.

Note 38: Capital management

a) Risk management

For the purpose of the Company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders. The primary objective of the Company capital management is to maximise the shareholder value.

Note 49: Revenue from contract with major customers

No single customer represents 10% or more of the Company's total revenue during the year ended March 31, 2024 and March 31, 2023.

While disclosing the aggregate amount of transaction price yet to be recognised as revenue towards unsatisfied (or partially satisfied) performance obligations, along with the broad time band for the expected time to recognise those revenues, the Company has applied the practical expedient in Ind AS 115. Accordingly, the Company has not disclosed the aggregate transaction price allocated to unsatisfied (or partially satisfied) performance obligations which pertain to contracts where revenue recognition corresponds to the value transferred to customer typically involving time and material, outcome based and event based contracts. Unsatisfied (or partially satisfied) performance obligations are subject to variability due to several factors such as terminations, changes in scope of contracts, periodic revalidations of estimates, economic factors (changes in currency rates, tax laws etc). This excludes transactions with subsidiaries of the Company.
