DATAMATICS

AI-Powered Logistics Automation Solution

Transforming Logistics with AI-Powered Innovation

In today's fast-paced travel and logistics industry, staying ahead requires more than just adaptation; it demands transformation. At Datamatics, we recognize the immense potential of technology to redefine industry benchmarks. By harnessing the power of data and artificial intelligence, we envision a future where businesses achieve unparalleled productivity, agility, and customer satisfaction.

Datamatics FINATO, an AI-first integrated logistics and finance solution, addresses critical challenges such as inefficiencies in document management, billing delays, and revenue leakages. With advanced capabilities like auto-classification, data extraction, and a powerful business rule engine, FINATO streamlines end-to-end processes across quotations, shipping documents, invoices, and compliance workflows, ensuring accuracy and efficiency.

Built with a "Digital-first" and AI-first mindset, FINATO seamlessly integrates with both cloud and on-premise systems. By leveraging AI/ML and advanced analytics, it delivers actionable insights that enable smarter decision-making. FINATO revolutionizes billing cycles, driving operational efficiency, cost savings, scalability, and continuous improvement for logistics businesses.

FINATO – LOGISTICS AND F&A PLATFORM

A Unified Logistics and F&A Platform Process, People, Technology, Best Practices, World Class, Industry Leader.
